Explanation of the Articles of the Calendar.

These pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy for every city in Canada.

MOON'S PHASES.—This Table gives the times for the two meridians when the moon passes the geocentric longitudes of 0°, 90°, 180° and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this table are given the times at which twilight begins in the morning and ends in the evening, *i. e.*, the times when the sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

Degrees of Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	-5' 58"	-4' 5"	-2' 5"	0' 0"	+2' 12"	+4' 32"	+6' 59"	+9' 34"	+12' 18"
2nd Correction for each minute of latitude.....	+ 1.9"	+ 2.0"	+ 2.1"	+ 2.2"	+ 2.3"	+ 2.5"	+ 2.6"	+ 2.7"	

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude 43° 20'... 1st correction = - 4' 5" 2nd correction + 2.0 × 20 = + 40"
 " " 47° 40'... " + 4' 32" " " + 2.5 × 40 = 1' 40"
 " " 45° 10'... " + 0' 0" " " + 2.2 × 10 = 0' 22"

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of Toronto.

When the planetary day is shorter than the mean solar day, and commences soon after the midnight of the preceding day, the planet will sometimes arrive a second time on the meridian before the expiration of the actual civil day. From analogous causes a planet will sometimes rise twice or set twice in the same civil day. When two culminations occur in the same day, or two risings or settings, the times of both are registered.

The times of the **SUN'S RISING AND SETTING** are given for the upper limb, and are corrected for refraction both for Toronto and Quebec.

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

The **MOON'S MERIDIAN ZENITH DISTANCES** are given to the nearest tenth of a degree for Toronto. They are not corrected for parallax or refraction.

The column **SUN ON MERIDIAN** gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shews to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, **MOON ON THE MERIDIAN**, gives the mean time at which the moon's centre passes the meridian of Toronto. When in the column headed Moon's rising or setting or Moon on meridian the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

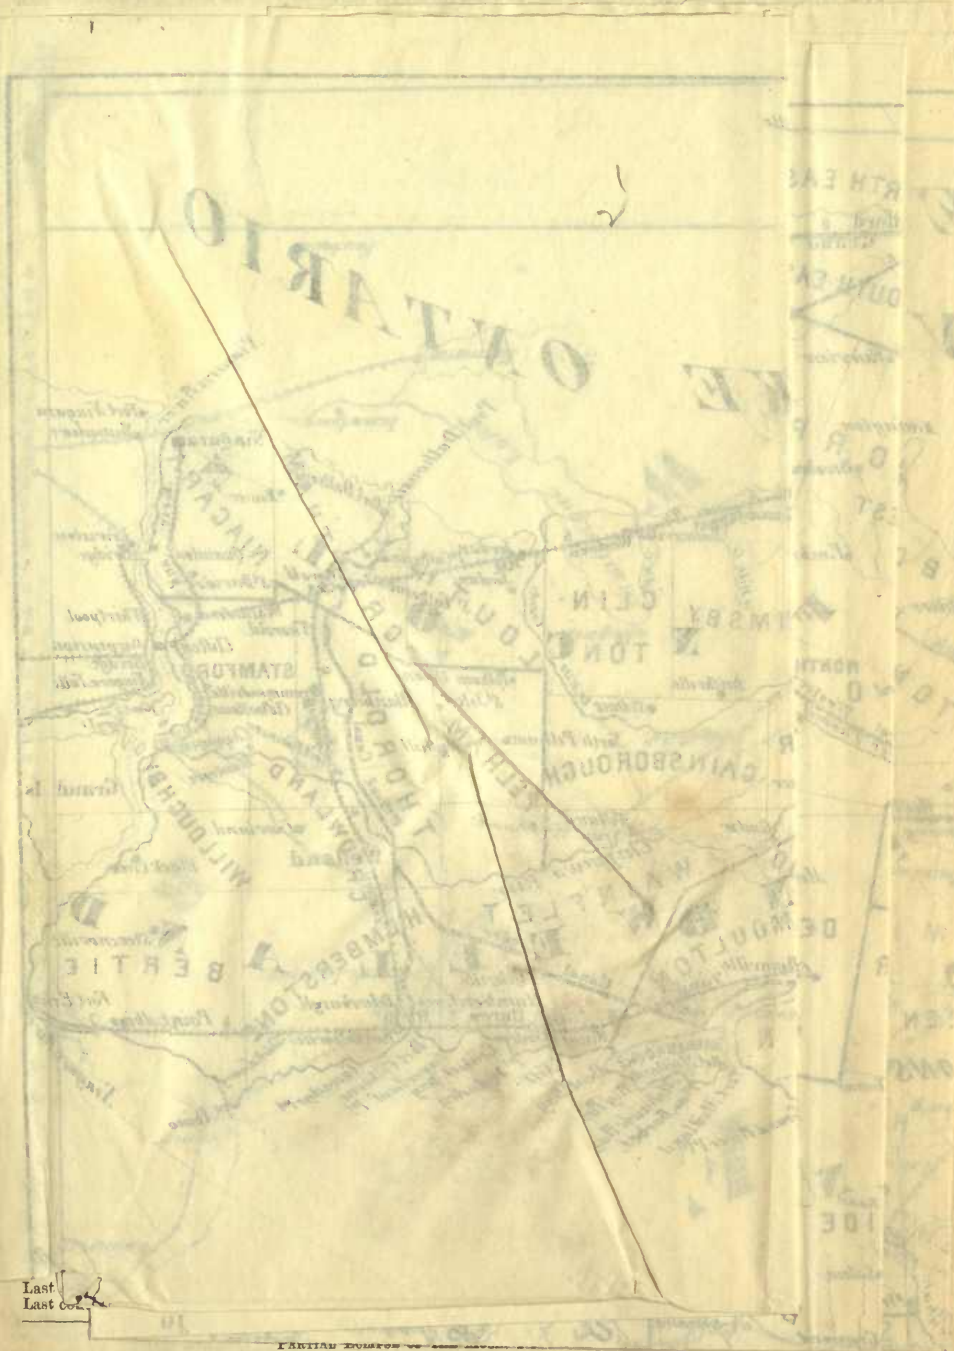

The column, **UPPER TRANSIT OF POLE STAR** shews for every day the mean time at which the Pole Star makes its upper transit across the meridian of Toronto. It passes in the morning from April 9 to October 9, and in the afternoon for the rest of the year, excepting on October 10, when it does not cross the meridian.

The four last columns, although computed for Toronto, will serve with sufficient accuracy for the whole of Canada.

The time at which the lower transit of the Pole Star occurs may be found by adding 11 h. 58 m. 2 s. to the time of the preceding upper transit.

From the time of the upper transit of the pole star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°

THE CANADIAN ALMANAC, FOR THE YEAR 1863.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the setting of a Star, add the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Eclipses.

In the year 1863 there will be two Eclipses of the Sun and two of the Moon.

- | | |
|--|---|
| I.—A partial Eclipse of the Sun, May 17, invisible in Canada. | III.—An annular Eclipse of the Sun, November 10, invisible in Canada. |
| II.—A total Eclipse of the Moon, June 1, partly visible in Canada. | IV.—A partial Eclipse of the Moon, Nov. 24-25, visible in Canada. |

TOTAL ECLIPSE OF THE MOON, JUNE 1.

The end of the total phase will occur before the Moon rises at each of the places named in the following table, which gives the local mean time (p. m.) of the last contacts of the shadow and penumbra. The last contact with the shadow occurs at 108° from the northernmost point of the Moon's limb towards the west.

PARTIAL ECLIPSE OF THE MOON, November 24-25.

The first contact with the Shadow occurs at 56° from the northernmost point of the Moon's limb towards the East, and the last contact at 67° towards the West. Magnitude of the Eclipse (Moon's diameter = 1) 0.950.

The following table shows the local mean time at which the several phases occur on the morning of November 25th.

HOLY AND SAINT DAYS, &c., MEMORABLE EVENTS.

JANUARY.

It freezes on,
 'Till morn, late rising o'er the drooping world
 Lifts her pale eye unjoyous. Then appears
 The various labour of the silent night:
 Prone from the dripping eave and dumb cascade,
 Whose idle torrents only seem to roar,
 The pendant icicle; the frost work fair
 Where transient hues and fancy'd figures rise.

FEBRUARY.

The whit'ning shower descends
 Broad, wide, and fast, dimming the day
 With a continual flow. The laborer-ox
 Stands cover'd o'er with Snow:—The fowls of heaven
 Tumb'd by the cruel season crowd'd around
 The winnowing store, and claim the little boon
 Which Providence assigns them. The bleating kind
 Eye the bleak heaven—and sad, dispers'd,
 Dig for the wither'd herb, through heaps of snow.

MARCH.

The loosen'd tempest reigns:
 The mountain thunders; and its sturdy sons
 Stoop to the bottom of the rocks they shade:
 Low waves the rooted forest, scatter'd by the winds
 Assiduous fury, its gigantic limbs—
 Thus struggling through the dissipated grove
 The whirling tempest raves along the plain.

APRIL.

No more
 Th' expansive atmosphere is cram'd with cold;
 But, full of life and vivifying soul
 Lifts the light clouds sublime, and spreads them thin,
 Fleecy and white, o'er all-surrounding heaven.
 The softer gales succeed, at whose kind touch,
 Dissolving snows in livid torrents lost,
 The mountains lift their green heads to the sky.

HOLY AND SAINT DAYS, &c., MEMORABLE EVENTS.

MAY.

Off let me wander o'er the dewy fields
Where freshness breathes, and dash the trembling drops
From the bent bush, as through the verdant maze
Of sweet-brier hedges I pursue my walk,
And see the country far diffus'd around,
One boundless blush, one white-empurpled shower
Of mingled blossoms.

JUNE.

— The breathing prospect bids the muse
Throw all her beauty forth. But who can paint
Like nature? Can Imagination boast
Amid its gay creation, hues like hers?
Or can it mix them with that matchless skill,
And lose them in each other, as appears
In every bud that blows.

JULY.

'Tis raging Noon!—The mower sinking heaps
O'er him the humid hay, with flowers perfum'd;
And scarce a chirping grass-hopper is heard
Thro' the dumb reed. Distressful nature pants.
The very streams look languid from afar;
Or thro' th' unshelter'd glade, impatient, seem
To hurl into the covert of the shade.

AUGUST.

— Attempred Suns arise
Sweet beam'd, and shedding off through lucid clouds
A pleasing calm; while broad, and brown, below
Extensive Harvests hang the heavy head.
Rich, silent, deep, they stand; for not a gale
Rolls its light billows o'er the plain:
A calm of plenty!

HOLY AND SAINT DAYS, &c., MEMORABLE EVENTS.

SEPTEMBER.

Hence from the busy, joy-resounding fields
In cheerful error, let us tread the maze
Of Autumn, unconfin'd: and taste reviv'd
The breath of Orchard big with bending fruit.
Obedient to the breeze, and beating ray
From the deep loaded bough a mellow shower
Incessant melts away.

OCTOBER.

A sober calm

Fleeces unbounded ether: whose least wave
Stands tremulous, uncertain where to turn
The gentle current. Then is the time
For those whom wisdom and whom nature charm,
To soothe the throbbing passions into peace,
And woo lone quiet in her silent walks.

NOVEMBER.

Then comes the Father of the tempest forth,
Wrapt in black glooms. First joyless rains obscure
Drive thro' the mingling skies with vapor foul;
Dash on the mountain's brow, and shake the woods,
That grumbling wave below.
Snatch'd in short eddies plays the wither'd leaf
And on the flood the dancing feather floats.

Mysterious round! what skill, what force divine,
Deep felt, in these appear! a simple train,
Yet so delightful mixt with such kind art,
Such beauty and beneficence combined;
Shade, unperceived, so softening into shade;
And all so forming an harmonious whole,
That as they still succeed, they ravish still.

The year 1861, with respect to its temperature, exhibited, as a whole, nothing extraordinary, the mean of the year differing from the average of twenty-two years to the extent of only 0°·10 in excess. The monthly means, moreover, did not differ in a marked degree from the means proper to the several months derived from twenty-two years, the average deviation, without regard to sign, being 2°·24; while the average deviation in the whole period of twenty-two years, and referred to the same standard, was 2°·44. If, however, the *signs* of the deviations be taken into account, it will be seen that the compensations by which the annual mean was maintained, were of the kind that may be styled *unseasonable*, being such as tended to weaken rather than to intensify the distinctive characters of the different parts of the year. Thus, from May to August—comprising the greater part of the year in which the temperature is *above* the yearly mean—the monthly means were relatively *low*; while in February and December, the monthly means were relatively *high*. The depression (3°·9) in the temperature of May, was never exceeded in any May of former years, and was nearly approached only in 1849 and 1851, when in both cases the cold of May was succeeded by unusual warmth in June and July. The abnormal warmth of April served only to aggravate the evil, by hastening the vegetation that was thrown back by the frosts that followed in May. The bad effects of a generally low summer temperature may perhaps be modified, as regards some plants, by occasional bursts of heat, though they be necessarily balanced by unusually low temperatures at other parts of the season. No such mitigating circumstances occurred in 1861, as the warmest day and the absolutely highest temperature of the year were both below the twenty-two years' average.

The hygrometric condition of the summer was not favourable; the mean relative humidity of May, June and July, being 70 against 74, the twenty-one years' average for these months. But as the temperatures were low, the foregoing numbers do not present so strong a contrast as do the tensions of vapour, which for the same three months were ·359 in 1861, and ·393 on the average of twenty-one years. The contrast in this respect between 1860 and 1861, was very conspicuous in May, the tension of vapour for this month being more than 41 per cent. greater in 1860 than in 1861.

May and June were 8 per cent. and 16 per cent. less cloudy than is usual in those months; while later in the season, when a bright sun is more in request, clouds were more than 20 per cent. in excess.

The depth of rain, which on the whole year was three inches in defect, was deficient in June and July to the extent of more than an inch and a half. In May, when rain is an hindrance to gardening and agricultural operations, it was rather in excess; while, as before stated, there was a want of that moisture in the air whose presence is favourable to the development of young leaves.

In the following summary, the chief meteorological elements relative to the year 1861, are compared with the average results derived from a series of years, as well as with extreme values that have occurred during the same series:

	108°·6	102°·7	118°·2 (in 1855)	87°·0 (in 1847)

The mean temperature of the *warmest day* in the foregoing table, refers to the 22 years' average of the warmest days in each year, irrespective of their dates, the average date being simply the arithmetic mean of the several dates,

measured from any fixed epoch. The same remark applies to the *coldest* day, and to the *maxima* and *minima* of the year. As regards the low temperatures, the averages are derived from the coldest days and lowest temperatures in successive *winters*,—December being considered to belong to the following year.

There were twenty-seven days, in the year 1861, when the mean temperature of the day differed 12° and upwards from the normal mean of the day.

BAROMETER.

Least cloudy month	June	{ July & Aug. }	July, '53	June, '61
when the mean of the month was ..	45	45*	34	45*

* The average minimum of cloudiness in the second column, is the minimum of the twelve monthly means of nine years, and does not always include the lowest months of each year, as these fall differently in different years. This explains why the *highest* minimum in the fourth column should be numerically equal to the minimum on the average of nine years.

WIND.

On February 7th, a heavy snow-storm occurred, accompanied by a strong gale and intense cold. At one part of the day, when the temperature was $14^{\circ}3$ below zero, the wind was blowing more than 33 miles an hour, with heavy falling and drifting snow. The temperature afterwards fell to $20^{\circ}8$ below zero, but at that time the gale had subsided.

THE EDUCATIONAL RESOURCES OF CANADA.

The Educational resources of a country differ essentially from its resources of almost every other kind. Thus, when we speak of the physical or industrial resources of a country—its mines, its fisheries and its timber—we attach a definite meaning to the term. So also of its more important commercial resources, such as rivers, lakes, natural harbors and indigenous products. All these are in themselves real, actual, tangible. They are God's noble gifts of nature to man, scattered in almost every land with bounteous profusion. Even the Military resources of a country are, to a great extent, uncreated by man's skill. Mountain heights, deep defiles, positions of natural strength, navigable rivers, mines of lead, iron and saltpetre, and even climate, present such a variety of military resources, that for a country possessed of them, and not destitute of patriotic zeal, to be overrun or conquered, could

not fail to dim the lustre of its arms, even if it would not in itself be a national disgrace. But the Educational resources of a country are purely artificial. They are the result of man's own forethought and care, but which when rightly applied to the cultivation of man's nobler powers and faculties, never fail to obtain the blessing of that divine Being who is the great central source of all human knowledge.

In this paper we propose to speak of these artificial Educational Resources of Canada under the general heads of:—I. Educational lands endowments. II. State endowments of education, &c. III. Municipal assessments. IV. Local aid to education. V. The number, character and value of our Educational Institutions. VI. Libraries. VII. The various supplementary aids to education which are in active operation among us.

Few taking an interest in the subject can look back upon the chequered educational history of Canada without a mingled feeling of admiration and regret. And as we become the more acquainted with the enlarged views and noble aspirations of early statesmen, and the corresponding princely endowments for education which were made in Upper and Lower Canada before and about the beginning of the present century, our feeling of admiration is heightened, while the feeling of regret is deepened as we learn the disappointments, disputes and dissipation of funds which characterized the later educational history of Canada, before even a satisfactory beginning was made in the establishment of its schools and colleges.

No less than three millions and a half of acres of land were set apart from time to time in Lower and Upper Canada for the promotion of education, under French and English Governors. In the educational projects of the statesmen of those times we discover the dim outlines of a great and comprehensive system of public instruction which they evidently had in view, and which was designed to embrace alike the School and the University. Thus, to the *Grand Monarque*, Louis XIV, and his advisers, especially his famous finance minister, Colbert, are we indebted for the foundation of what has since been expanded into the Laval University at Quebec; and to the no less famous monarch, George III., and his advisers, are we indebted for the present munificent endowment of the Grammar Schools and University of Upper Canada.

As an example of the solicitude felt by His Majesty, George III., in this matter, we will quote the memorable words of the despatch from the Duke of Portland to Mr. Russell, (interim governor,) dated Whitehall, 4th November, 1797, and written in reply to a petition from the Legislature of Upper Canada on the subject. The Duke says, "His Majesty * * * being always ready to show his paternal regard for the welfare of his subjects in the furtherance of so important an object as the instruction of youth, and to assist and encourage the exertions of his Province in laying the foundation for promoting sound learning and a religious education, has condescended to express his most gracious intention to comply with the wishes of the Legislature of his Province of Upper Canada in such manner as shall be judged to be most effectual. First, by the establishment of *Free Grammar Schools* in those districts in which they are called for; and secondly, in the process of time, by establishing other *Seminaries of a larger and more comprehensive nature* for the promotion of religious and moral learning, and the study of the arts and sciences."

On receipt of this despatch, the Hon. Mr. President Russell directed the members of the Upper Canada Executive Council, the Judges and Law Officers of the Crown, to meet, and, after due consultation, to report for the information of the King, "in what manner and to what extent a portion of the waste lands of the Crown might be appropriated and rendered productive towards the foundation of a fund" for the promotion of the objects named in the despatch. The Committee presented an elaborate report, dated the 1st of December, 1798, in which they recommended (1) an appropriation of ten townships, or 500,000 acres of land, (2) the erection of two free Grammar Schools, one at Kingston and the other at Newark (Niagara), (3) the appropriation of \$12,000 for the erection of each school, (4) sale of lands to raise these funds, (5) an annual grant of \$720 to each school, (6) a grant of \$48,000 for the erection of a University, and \$2,880 per annum for its support. Other minor recommendations were added to the report.

The 550,274 acres of land set apart in pursuance of the Duke of Portland's despatch were afterwards, upon the recommendation of the Executive Government, divided between the Grammar Schools, King's College (now the University of Toronto and University College), and Upper Canada College.

Into the manner in which the splendid endowment which was thus set apart for Grammar and Collegiate education in Upper Canada, was dealt with it is not our province nor intention to enter; but we will briefly refer to the several divisions of our subject in the following order, viz.:

Our first point of illustration is—

I.—THE EDUCATIONAL LANDS ENDOWMENT.

1. In Upper Canada.

Through the munificence of the King, the following Lands were set apart for the objects named:

	ACRES.
(1.) Grammar Schools	258,339
(2.) Collegiate Institutions	226,200
(3.) Upper Canada College	66,000
	550,539
(4.) Trinity College, Toronto, (private benefactions)	23,585

2. In Lower Canada.

Various Royal Grants, &c.*	
(1.) Order of Jesuits, for Education	891,845
(2.) Bishop and Seminary of Quebec	693,321
(3.) St Sulpicians, Montreal	250,191
(4.) Ursuline Convent, Quebec	164,616
(5.) Ursulines of Three Rivers	38,909
	2,038,885

3. In United Canada.

(1.) Parliamentary Appropriation of Lands for Common Schools in Upper and Lower Canada (1859)...	1,000,000
Grand total Number of acres	3,613,900

The grants of land for religious and educational purposes in Lower Canada were made by the French monarchs before the conquest in 1759, and were confirmed by treaty. Those to the community of Jesuits were made as early as 1634. Grants were also made to this Religious Order in the years 1647, 1651, 1652, 1656, 1659, 1692, and the last in 1699. Upon the suppression of that Religious Order, and after the death of the surviving member in Canada in 1799, the lands reverted to the Crown as equitable trustee to the estates for educational purposes. The Jesuit College of Quebec was however retained by the Imperial Government, and converted into a military barracks, to which purpose it is still applied. Various efforts have been made to obtain the transfer to the estates of this "Jesuit Barrack," but as yet without effect. Intimation has however been given by the Imperial Government that the Jesuit Barrack would be surrendered upon the condition of providing another suitable building for barrack purposes. This cannot be done, however, unless at a disproportionate cost to the value of the barracks, and thus the matter rests for the present.

The Parliamentary Grant of a million of acres for Common School purposes in 1859 was chiefly made through the active exertions of the late Hon. Wm. H. Merritt, who at that time was a member of the then existing government. The revenue from the investments arising out of the sale of these lands does not yet equal the parliamentary grant, but it is expected that before many years it will do so, and thus relieve the consolidated revenue of the present annual charge upon it for common schools.

Our second point of illustration is—

II.—THE STATE ENDOWMENTS OF EDUCATION, &c.

1. Upper Canada (1862).

(1.) Parliamentary Grant to Superior Education (i. e., Colleges and Universities)	\$20,000
Less applied to Grammar Schools as below	3,200

(2.) Income of University College, Toronto, and Upper Canada College, (from Lands) about...	75,000
(3.) Parliamentary Grant to Grammar Schools, from Lands, &c.	22,619
Parliamentary Grant to Grammar Schools, \$10,000, \$3,200...	13,200
	35,819
Parliamentary Grant to three Medical Schools	3,000
Parliamentary Grants to three Literary Institutions, &c.	1,800
Parliamentary Grant to two Observatories	5,300
	10,100
	137,719
(4.) Parliamentary Grant to Common Schools from Lands, &c.	186,032
Carried forward.....	323,751

* This statement in regard to the Royal grants of land in Lower Canada is taken from a memorial addressed by the Right Rev. Dr. Strachan, Bishop of Toronto, to the Canadian Legislature, in November, 1843. No further authentic statement can be obtained on this subject.

Brought forward.....	\$323,751	
2. Lower Canada (1862).		
(1.) Parliamentary Grant to Superior Education (i. e., College and Universities)	20,000	
Income from Lands and Investments	26,685	
Unappropriated balance transf. from Legislative School Grant, as below	34,047	
		80,732
(2.) Income of Laval University & Seminary from Lands, &c. (estimated)		12,500

Grand Total of State Endowment of Education, \$563,083

Our third point is:—

III.—MUNICIPAL OR OTHER LOCAL ASSESSMENT.

(1.) In Upper Canada (1861).....	278,085
(2.) In Lower Canada (1861).....	244,530

Our fourth point is:—

IV.—INCOME FROM LOCAL SOURCES (School Rates, Fees, &c.)

1. In Upper Canada.

(1.) Colleges, &c. (1860)	33,750
(2.) Grammar Schools (1861).....	48,470
(3.) Common Schools (1861)	937,014
(4.) Private Schools (1861).....	45,393
	1,064,627

2. In Lower Canada.

(1.) Universities, &c. (1861)	64,355
(2.) Classical & Industrial Colleges (1861)	195,071
(3.) Academies for boys and girls (1861)	238,526
	\$498,552
Less Parliamentary Grant and income from lands, as above	95,232
	403,320
(4.) Common Schools (1861)	281,700
(5.) Private Schools (estimated)	45,000

Grand Total Legisl. and local aid to Education, \$2,591,065

Thus we see that, in addition to the three millions and a half of acres of the public domain set apart permanently for educational purposes in Canada, the annual expenditure of money derived from these lands and other grants on behalf of education and knowledge in the Province, amounts to nearly three millions of dollars. Of these three millions of dollars upwards of two millions are derived from local sources; but of these two millions not one penny is raised by a government tax. Such a thing as a government educational tax is unknown in Canada. Even the amount contributed towards education by the government is chiefly derived from investments arising out of the proceeds of the sale of school and college lands, formerly set apart for these purposes. The balance is paid out of the general provincial revenue.

It is worthy of remark, too, that the imposition of the local rate for school purposes is a voluntary act on the part of the municipal authorities. They are not required by law to raise this rate, and may decline doing so at their pleasure, without suffering any legal penalty. It is true that an apportionment is made from the legislative school grant, on condition that the municipalities raise a sum equal to the amount granted. But this is simply the wise application of the paternal and equitable principle of helping those who help themselves, and involves no compulsion, nor the arbitrary acceptance of the proffered grant. Even in the rural school sections, no rate for the support of the school can be imposed by school trustees without the consent of the assessed freeholders and householders, as expressed at a public meeting called for that purpose.

In Upper Canada, the school and college lands set apart by George III., as already intimated, have for years formed the chief source of revenue for higher education; and in Lower Canada, investments arising out of the proceeds of the sale of the forfeited Jesuit estates and of the Seminary

lands have furnished the principal portion of the means for that part of the Province; while for common school purposes a large portion of the annual parliamentary grant is derived from instalments arising out of the proceeds of the sale of the million of acres of lands set apart in 1859, by act of the Provincial Legislature. The balance of this fund is annually made up, out of the general revenue, by a vote of the House of Assembly.

Although the aggregate sum expended on behalf of education from various public sources is comparatively large, yet the burthen of this expenditure is so adjusted or distributed as to press lightly upon the whole community. The income which is set apart from the public domain, chiefly for the education of the sons of the wealthier classes at the Grammar School and University, is contributed equally by rich and poor in proportion to their respective interest as rate-payers in the value of these public lands, so also is the income from the same source set apart for Common School purposes, contributed in similar proportions, chiefly for the benefit of the other or less wealthy class. Both are thus alike called upon to contribute towards the support of elementary and higher education, not unequally, nor as rich and poor, but as citizens, and in exact proportion only to the respective values of their assessed property and to the interest which they have in the public lands as members of the body politic. Thus the burthen of supporting the educational institutions of the country falls justly and equitably as well as proportionably on each class alike. So universally is this obligation felt to rest upon these classes alike, that the objection current some years since in Upper Canada against supporting free school in cities, towns, and rural places, on the part of those who only sent their children to be educated at the Private School, the Grammar School or the University, has almost entirely ceased to exist. As well might the one class object to the support from public sources of Grammar Schools and Universities, as for the other to object to a similar support being extended to the Common Schools, either directly by the legislature, or indirectly by making a portion of such support a lien upon the landed property of the country. Indeed, so strong a hold has the general system of public instruction now upon the public mind, that for the legislature to omit a grant to education from its annual votes, or for the municipalities to neglect raising the necessary funds for the support of the public schools, would be deemed the omission of an important and positive duty, and would give rise to serious disappointment and dissatisfaction.

This state of feeling is of comparatively recent growth, and has arisen chiefly during the last ten years. For in all the fluctuations which our earlier educational system underwent in the matter of grants and the progress of education the public seems to have tacitly acquiesced, or to have been indifferent to them. Thus, in 1807, when Grammar Schools were first established in Upper Canada, only \$3,200 were granted for their support, while no provision whatever was made for Common or Elementary Schools until 1816—nine years afterwards. In that year, \$24,000 were granted for the support of these schools; but in the following year, this sum was reduced to \$10,000! Even in 1832, this annual grant had only reached the sum of \$9,600, and that to Grammar Schools \$4,000. In the following year, however, the grant to Common Schools was increased nearly four-fold, while that to Grammar Schools remained about the same. These grants were continued undiminished until the union of the Provinces in 1840.

During the civil troubles which occurred in 1837–8, Canada seems to have reached the lowest depths in her educational history. But, as brighter days dawned, she rapidly recovered herself, and has since gradually advanced in educational as well as material and political prosperity.

Our fifth point of illustration is—

V.—THE NUMBER, CHARACTER AND VALUE OF OUR EDUCATIONAL INSTITUTIONS.*

1. In Upper Canada there are the following Educational Institutions, viz ,

* In many instances the information contained under this head is necessarily defective. Circulars were sent to the authorities of each of the principal institutions named, but replies were only received from Institutions in Lower Canada before the publishers had to put the Almanac to press. An approximation has however been made in those cases in which the desired information has not been received, based upon the best available evidence.

2. In Lower Canada there are the following Educational Institutions, viz.:

Grand Total for Lower Canada.....	4702	201,820	\$3,983,000	\$221,540	1,235,700	

Thus we see that, with a population of two millions and a half, the total number of Educational Institutions in Canada of all grades is about 8,130; or one for about every 325 of the population. The number of students and pupils attending these institutions is 547,000; the estimated value of the sites and buildings devoted to the purposes of education reaches the princely sum of \$7,000,000; the value of school furniture, libraries, maps and apparatus, is about \$115,000; while the aggregate annual income of these

Educational Institutions amounts to \$2,972,500, or more than the entire revenue of the Provinces of Nova Scotia and New Brunswick taken together!

These statistics, with those in the preceding part of this article (in many cases approximative — though understated) are most cheering in their character, and present the *Educational Resources of Canada* in a very favourable light. They combine in themselves the evidence of what has been done and is still doing both by the government

and the rate-payers on the one hand, and by private and denominational benevolence and enterprise on the other, for the promotion of education in the country. They clearly demonstrate that the hearts of the people of the Province are deeply penetrated with the conviction of the national importance of a comprehensive scheme of education, embracing every description of educational institution and combining in its support all classes and creeds in the community.

The sixth point of illustration of our educational resources relates to the number and extent of the

VI.—PUBLIC LIBRARIES IN CANADA.

Before inserting the table on this head, it may be interesting to show what has been the extent of the demand for books in Canada for the last twelve years. The facts are highly encouraging, and speak well for the prevalence of an enlightened literary taste and growing intelligence among the various classes of the people.

The following STATISTICAL TABLE, which has been compiled from the Trade and Navigation Returns for the Province, shows the gross value of books (not maps or school apparatus) imported into Canada during the twelve years specified.

Year.	Value of Books entered at Ports in Lower Canada.	Value of Books entered at Ports in Upper Canada.	Total value of Books imported into the Province.
1850	\$101,580	\$141,700	\$243,580
1851	120,700	171,732	292,432
1852	141,176	159,298	300,444
1853	158,700	254,280	412,980
1854	171,452	307,808	479,260
1855	194,356	338,792	533,148
1856	208,636	427,994	636,623
1857	224,400	309,172	533,572
1858	171,255	191,942	363,197
1859	139,037	184,304	323,261
1860	155,604	252,594	408,108
1861	185,612	344,621	530,233
	1,072,828	3,084,115	5,056,843

Up to 1851, the Trade and Navigation Returns give the value on books entered at every port of Canada separately; after that year, the Reports give the names of the principal ports only, and the rest as Other Ports. In 1854, the proportion entered in Lower Canada was within a fraction of a third part of the whole, and, accordingly, in compiling this table for the years 1855-61, the value entered in Other Ports is divided between Upper and Lower Canada, in the proportion of two-thirds to the former and one-third to the latter.

The Public Libraries in Canada are as follows:

(1.) Public Libraries in Upper Canada.	No.	No. of Volumes

Our seventh and last point of illustration is—

VII.—VARIOUS SUPPLEMENTARY AIDS TO EDUCATION.

It is not easy to form an estimate of the number or extent of these supplementary aids to education among us. They are very numerous and diversified, but are difficult to classify. In a summary sketch like this of our *Educational Resources*, no aid to education should be overlooked, however humble; for each in its place performs an important function, and contributes materially to the progress of education and intelligence among the people.

Among these supplementary aids we may enumerate the following, although we can in many cases scarcely classify them or estimate their number.

1. The Religious, Educational, Literary, Scientific, and Secular Press.
2. Bible and Tract Societies.
3. Religious Meetings and Public Lectures.
4. Historical Societies, Literary and Scientific Institutes.
5. Scientific Observatories and Museums.
6. Professional Schools of Theology, Law and Medicine.
7. Nunneries, Private and Indian Schools.
8. Literary Clubs and Debating Societies.
9. Young Men's Christian Associations.
10. Mercantile Library Associations and Reading Rooms.
11. Mechanics' Institutes and their Libraries.
12. Agricultural and Horticultural Associations and their Exhibitions.
13. Orphan Asylums and similar Benevolent Institutions.
14. Reformatory Schools and Jail Libraries.

These all perform their duty silently and effectively. Separately they are diverse, both in their character and operations; but combined, they form a mighty supplementary agency in the after-training of an individual. They develop his intellect, call forth his benevolence, cultivate his taste, extend the range of his sympathies, and give an additional interest to his daily life. Each one also, having in view a definite object of pursuit or taste or benevolence, gives when combined a concentration of purpose or effort, and thus supplies a want which cannot be furnished by ordinary educational training.

What nobler tribute to the spirit and genius of Christianity can be presented in any land than that such a vast supplementary agency, which in itself is chiefly benevolent or gratuitous, is being kept constantly at work through many hands to give living, practical effect, to the teachings of that Christianity in ameliorating the condition of society, and in uplifting the masses who have either passed from the school and the university into the outer world, or who have never enjoyed the advantages of either.

To recapitulate, it may be sufficient to say that the *Educational Resources* of Canada consist of—

- 3,613,000 acres of land set apart for educational purposes.
- \$563,803 annual state endowment of education.
- 2,327,262 local aid to education.
- 8,130 educational institutions.
- 547,000 pupils and students.
- \$7,000,000 estimated value of school sites and buildings.
- \$415,000 estimated value of school furniture maps and apparatus.

\$530,000 worth of books annually imported into the provinces.

2,876 public libraries, containing—
767,644 volumes of books.

Together with numerous supplementary educational agencies to which we have just referred.

Canada, yet in comparative infancy, may well be proud of her *Educational Resources*. They are princely in their character and priceless in their worth. They demonstrate that her inner life is vigorous and active, and that if she falls in her high destiny as the brightest colonial jewel in the crown of her most gracious Majesty the Queen, her sons must have sadly degenerated from the noble spirit and heroic self-sacrifice of their devoted fathers, the United Empire Loyalists of America, and from those extraordinary men, who, fired with an untiring national zeal, sought, amid unparalleled privation and suffering, to extend the dominion of France over this entire continent.

As these resources have yearly accumulated and have come down to us in such rich abundance, let us sacredly guard them and seek to extend their value and usefulness. Taking warning by other nations, let us neither dwarf their growth nor extinguish their light; but through God's blessing let us transmit them undiminished and unimpaired to those who come after us.

Courts.

COURT OF ERROR AND APPEAL.—Constituted for the hearing of appeals in civil cases from the Courts of Queen's Bench, Chancery and Common Pleas; and appeals in criminal cases from the Courts of Queen's Bench and Common Pleas. From the judgment of this court, an appeal lies to Her Majesty in Privy Council, in cases over £1,000, or where annual rent, fee, or future rights of any amount, are affected. *Judges*.—Hon. Sir John Beverley Robinson, Bart., C.B., D.C.L., Presiding Judge; Hon. Arch. McLean, Chief Justice of Upper Canada; Hon. P. M. M. S. Vankoughnet, D.C.L., Chancellor of Upper Canada, Hon. Wm. Henry Draper, C.B., Chief Justice of the Common Pleas; Hon. J. C. P. Esten, Vice Chancellor; Hon. Robt. E. Burns, Judge of the Queen's Bench; Hon. John Godfrey Spragge, Vice-Chancellor; Hon. William Buell Richards, Judge of the Common Pleas; Hon. John Hawkins Hagarty, Judge of the Court of Queen's Bench; Hon. Jos. Curran Morrison, Judge of the Court of Common Pleas. *Clerk and Reporter*, Alex. Grant.

COURT OF IMPEACHMENT.—For the trial of Judges of County Courts in Upper Canada, under Con. Stat. U. C., cap. 14.—*Judges*.—Hon. Archibald McLean, Chief Justice of Upper Canada; Hon. Philip M. M. S. Vankoughnet, D.C.L., Chancellor of Upper Canada; Hon. Wm. H. Draper,

C.B., Chief Justice of the Court of Common Pleas. *Clerk*: W. B. Heward.

COURT OF QUEEN'S BENCH.—The jurisdiction of this Court extends to all manner of actions, causes and suits, criminal and civil, real, personal and mixed, within Upper Canada, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may hear and determine all issues of law, and also with the inquest of twelve good and lawful men (except in cases otherwise provided for) try all issues of fact, and give judgment, and award execution, thereon, and also in matters which relate to the Queen's Revenue (including the condemnation of contraband or smuggled goods) as may be done by Her Majesty's Superior Courts of Law in England. *Chief Justice*.—Hon. Archibald McLean; *Puisne Judges*.—Hons. Robert Easton Burns and John Hawkins Hazarty, D.C.L. *Clerk of the Crown and Pleas*.—Chas. Coxwell Small. *Reporter*.—Chris. Robinson. *Clerk in Chambers*.—W. B. Heward. *Clerk of the Process*.—R. Stanton. *Taxing Officer*.—John Small. *Clerk of the Plea Department*.—John W. Dempsey. *Clerk of the Docket*.—Thos. Coxwell. *Registrar of Crown Bonds, &c.*.—E. G. Small. *Clerk of the Vault Department*.—Thos. Goldsmith. *Crier and Usher*.—And. Fleming.

COURT OF CHANCERY.—This Court has the like jurisdiction as the Court of Chancery in England, in cases of fraud, accident, trusts, executors, administrators, co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, staying proceedings at law prosecuted against equity and good conscience, and may decree the issue, repeal or avoidance of letters patent, and generally the like powers which the Court of Chancery in England possesses to administer justice in all cases in which there is no adequate remedy at law. *Chancellors*.—Hon. P. M. M. S. Vankoughnet, D.C.L. *Vice-Chancellors*.—Hons. James C. P. Esten and John Godfrey Spragge. *Master*.—And. Norton Buell. *Taxing Officer*.—Geo. Hemings. *Registrar & Reporter*.—Alexander Grant. *Special Examiners*.—John Hector and Wm. Vynne Bacon. *Usher*.—John Oliver.

COURT OF COMMON PLEAS.—This Court has the same powers and jurisdiction as a Court of Record, as the Court of Queen's Bench. Writs of summons and capias issue alternately from either court. *Chief Justice*.—Hon. Wm. Henry Draper, C.B. *Puisne Judges*.—Hons. William Buell Richards and Jos. Curran Morrison. *Clerk of the Crown and Pleas*.—Lawrence Heyden. *Reporter*.—Edward C. Jones. *First Clerk*.—Augustus B. Sullivan. *Second Clerk*.—S. B. Clark. *Clerk of the Process*.—R. Stanton. *Crier and Usher*.—Daniel Connell.

PRACTICE COURT AND CHAMBERS.—One of the Common Law Judges holds a Court during each Term, called the "Practice Court," for hearing matters relating to the adding or justifying bail, discharging insolvent debtors, administering oaths, hearing and determining matters on motion, and making rules and orders in causes and business depending in either of said law courts. Chambers are held each day in Common Law and Chancery by one of the judges of the said courts, for such business relating to suits therein as may be transacted by a single judge out of court. *Clerk*, Wm. B. Howard.

HEIR AND DEVISEY COURT.—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Upper Canada, for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees or assignees. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*, W. B. Heward.

COUNTY COURTS.—Presided over by a resident Judge in each county. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to either of the Superior Courts of Law. These Courts also possess equity powers, to the amount of £50, subject to an appeal to the Court of Chancery.

SUBROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the

granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Surrogate Courts. *Clerk, C. Fitzgibbon, Toronto.*

COURTS OF QUARTER SESSIONS.—Chairman, the County Judge in each county, who, with one or more Justices of the Peace, holds a Court of Quarter Sessions in his county four times a year for trials by jury in cases of larceny, misdemeanor and other offences.

RECORDERS' COURTS.—In the Cities of Toronto, Hamilton, London, Kingston, and Ottawa, the Recorders' Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities—the care of which is confided to the Recorder, Mayor, Aldermen and Police Magistrate of each. Sessions held first Monday in March, June and September, and third Monday in December. *Recorders*—Geo. Duggan, jun., Toronto; Arch. J. McDonell, Kingston; John E. Start, Hamilton; William Horton, London; J. B. Lewis, Ottawa.

INSOLVENT DEBTORS' COURTS.—The County Judge in each county presides.

DIVISION COURTS.—For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal chattels amounting to £10; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Courts are held once in two months in each division, or oftener, at the discretion of the Judge. The Divisions are established by the Courts of Quarter Sessions.

Crown Law Officers.

ATTORNEY-GENERAL—Hon. John Sandfield Macdonald, Q.C.
SOLICITOR-GENERAL—Hon. Adam Wilson, Q.C.

Officers of the Courts.

CLERKS OF ASSIZE.—The Deputy Clerks of the Crown are ex-officio Clerks of Assize and Marshals in their respective counties.

DEPUTY CLERKS OF THE CROWN.—The Clerks of the County Courts will be ex-officio Deputy Clerks of the Crown and Pleas of their several counties as the present incumbents vacate by death or otherwise.

DEPUTY REGISTRARS AND MASTERS IN CHANCERY.—These officers are appointed by the Court, for each County, as occasion requires.

CLERK OF THE PROCESS.—For sealing and issuing (alternately) all Writs of Summons in the Queen's Bench and Common Pleas—Robert Stanton. The Deputy Clerks of the Crown in the several Counties also, in like manner, issue the writs for their respective counties.

Lesneur. Clerks of the First Class—R. M. Julian, E. C. Hayden, J. T. McCuaig, R. Oliver, D. Lawson, H. S. Weatherley, P. Holt, J. C. Stewart. Clerks of the Second Class—J. Audette, C. R. McKenzie, J. Brophy, Geo. J. Mason. Clerks of the Third Class—J. Boyd, J. L. McMahon, E. H. Benjamin, Wm. D. LeSueur, B. King, G. H. Hargrave, H. J. Garrett, G. H. Holt, R. W. Barker, H. W. Griffin. Clerks of the Fourth Class—W. Berry, T. J. Holloway, O. Frechette, R. P. Davis, J. Wilson.

Inspection Branch—John Dewa, G. E. Griffin, M. Sweetnam, Edw. F. King, W. G. Sheppard, Francis Clemow, and Ogile R. Gowau.

LETTER RATES.

Letters posted in Canada addressed to any place within the Province pass, if prepaid, for 5 cents per $\frac{1}{2}$ oz., but if posted unpaid such letters are charged 7 cents per $\frac{1}{2}$ oz.

On Letters to Nova Scotia, New Brunswick, and Prince Edward's Island, the rate is 5 cents per $\frac{1}{2}$ oz., with optional prepayment.

The rate on Letters to the United Kingdom, is, by Canadian Packet,

Not exceeding $\frac{1}{2}$ oz. 12½ cents.
Exceeding " and not exceeding 1 oz. 25 " " " " 1 oz. and not " 2 oz. 50 "

and so on, increasing two rates of postage for each additional ounce.

And by Cunard Packet, 17 cents per $\frac{1}{2}$ oz., &c.

Letters for the United Kingdom must be prepaid, or they will be charged a fine of 6d. sterling on delivery.

Letters for British Colonies and Possessions beyond Sea, and Foreign Countries, via England, must be prepaid.

The rate on letters for the U. States,

(except California and Oregon) 10 cents per $\frac{1}{2}$ oz.
" for California and Oregon 15 " " " " to Cuba 20 cents per $\frac{1}{2}$ oz.

The Postage rate to British Columbia is,

Letters 25 cents per $\frac{1}{2}$ oz.
Newspapers 2 cents each.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz.: a Canadian Packet on every Thursday, via Derry on Friday, sailing to Quebec in summer and Portland in winter, by which the Postage rate is 6d. stg. per $\frac{1}{2}$ oz.; and a Cunard Packet every Saturday, via Cork on Sunday, bringing Mails for Canada, alternately to Boston and New York, by which the Postage rate to Canada is 8d. stg. per $\frac{1}{2}$ oz.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be careful to require them to be registered, and to obtain from the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada, or British North America 2 cents.
On Letters for the United States 5 " "
On Letters for the United Kingdom 12½ " "
On Letters for British Colonies or Possessions, sent via England 25 " "

On Letters for France and other Foreign Countries, via England, an amount equal to the postage rate.

Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced when an Unregistered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an Unregistered Letter.

MISCELLANEOUS CHARGES.

The charge on Parcels by the Parcel Post, which is limited to places within the Province, is 25 cts. per lb. (with 3 cts. additional if Registered.)

One cent per oz. payable in advance by Postage stamp, is the rate on Printed Circulars (Printed Circulars, if sent in envelopes, whether sealed or unsealed, are liable to letter postage). Prices Current, Hand Bills and other Printed Matter of a like character, and on Books, bound or unbound, when posted at a Canadian Post Office addressed to any place in Canada, British North America generally, or the United States.

The charge on Books, &c., by Book Post to England, is 7 cents on packets not exceeding 4 oz. in weight, 12½ cents on $\frac{1}{2}$ lb. packets, and 12½ cents additional for every additional $\frac{1}{2}$ lb. These charges must be prepaid. Photographs, provided they are not upon glass or in cases containing glass, may be forwarded to England at the Book rate of postage.

BOOK POST WITH FRANCE.

For a Packet of Printed matter, or single Newspaper, Book, &c. not over 2 oz. 4 cents.
Do. exceeding 2 oz. and " 4 oz. 8 " "
Do. " 4 oz. and " 8 oz. 17 " "
Do. " 8 oz. and " 1 lb. 34 " "

And so on, increasing 17 cents for each additional $\frac{1}{2}$ lb.

The Book Post regulations between Canada and England apply to matter between Canada and France.

NEWSPAPERS AND PERIODICALS.

Newspapers published in Canada may be sent by Post from the office of publication, addressed to any place in Canada, at the following rates, if paid quarterly in advance by either the publisher at the post office where the papers are posted, or by the subscriber at the delivering post office:

For a paper published 6 times a week, 40 cents per quarter.
" " 3 " " 20 " " "
" " 2 " " 13 " " "
" " 1 " " 6½ " " "

When the above rates are not paid in advance by either publisher or subscriber, such Papers are charged one cent each on delivery.

TRANSIENT NEWSPAPERS.

Transient Newspapers—that is to say, Canadian Newspapers posted otherwise than from the office of publication, and American or British papers posted or re-posted in Canada, must be prepaid 1 cent each, by postage stamp, or they cannot be forwarded—except only *British Newspapers* distributed to regular subscribers by Canadian Booksellers or News Agents—such papers pass free as they would do if received in the Canadian Packet Mails.

NEWSPAPERS BY MAIL FROM ENGLAND OR UNITED STATES.

Newspapers received from England by the Canadian Packet Mails are delivered free.

Newspapers from England by the Cunard Packet Mails are charged 2 cents each on delivery. (This is the American transit charge.)

United States Newspapers, brought by mail into Canada, are charged one cent each on delivery.

PERIODICAL PUBLICATIONS.

The rate on Periodical Publications is, if not exceeding 3 ounces in weight, 1 cent; over 3 ounces, 4 cents.

If prepaid by postage stamps from the office of publication, Periodicals published in Canada, weighing over 3 oz., may pass for 2 cents each.

Periodicals, printed in this Province, other than Newspapers, when specially devoted to the Education of Youth (both religious and general), to Agriculture, to Temperance, or to any branch of science, and addressed directly from the office of publication, to be transmitted to any post office in this Province, are exempt from charge.

Transient Periodicals—including Canadian Periodicals not prepaid the commuted rate from the office of publication—nor exempted by the preceding clause, and all other Periodical publications posted in this Province, must be prepaid by Stamp, the full rate, at the time of posting.

Periodicals received in Mails from the United States are charged with the rates named in the 1st clause of this section.

MONEY ORDERS.

Money Orders payable in the Province may be obtained at any Money Order Office in the annexed list, at the following rates of commission:

Under and up to \$10.....	5 cents.
Over \$10 and not exceeding \$20	10 do.
Do. 20 do. do. 30	15 do.
Do. 30 do. do. 40	30 do.
Do. 40 do. do. 60	45 do.
Do. 60 do. do. 80	60 do.
Do. 80 do. do. 100	75 do.

N.B.—No half cents to be introduced in the Orders.

No single Order can be issued for more than \$100.

Money Orders, payable at any Money Order Office in Great Britain and Ireland, can be obtained at any Canadian Money Order Office. The Orders are drawn in Sterling, the commission chargeable being: for £2 and under, 25c; over £2 and up to £5, 50c; over £5 and up to £7, 75c; over £7 and up to £10, \$1. No order can be drawn for more than £10, but any number of orders of £10 each may be procured.

POSTAGE STAMPS.

Postage Stamps are provided for sale of the respective values of 1 cent for Newspapers; 5 cents for ordinary Provincial Letters; 10 cents for United States rate; 12½ cents for Canadian Packet; and 17 cents for Cunard Packet.

Letter Envelopes are provided, impressed with medallion stamps, and equivalent to the prepayment of postage to the amount of 5 cents and 10 cents respectively.

The 5 cent envelopes will be sold to the public at the rate of \$5 50 per hundred, or 66 cents per dozen. The price of a single envelope is 6 cents.

The 10 cent envelopes will be sold at the rate of \$10 50 per hundred, or \$1 26 per dozen. Single envelopes 11 cts.

PENAL CLAUSES.

The Act contains the following penal clause:—

To inclose a letter or letters, or any writing intended to serve the purpose of a letter, in a Parcel posted, for the Parcel Post, shall be a misdemeanor.

To inclose a letter or any writing, or to make any written marks to serve the purpose of a letter, or to inclose any other thing in a newspaper posted to pass as a newspaper, at the rate of postage applicable to newspapers, (except in the case of accounts and receipts of newspaper publishers, which are permitted to pass folded within the newspapers sent by them to their subscribers,) shall be a misdemeanor.

List of Post Offices in Canada on the 1st October, 1862.

The Offices whose Names are printed in *Italics* are authorized to Grant and Pay Money Orders.—Those with an obelisk (†) are Sub-Offices.

UPPER CANADA COLLEGE.—George R. R. Cockburn, M.A., Principal; William Wedd, M.A., First Classical Master; James Brown, M.A., Mathematical Master; C. W. Connon, LL.D., English Classical Master; John Martland, B.A., Second Classical Master; Michael Barrett, M.A., M.D., First English Master, and Superintendent of College Boarding House; Rev. E. Schluter, M.A., French and German Master; C. Thompson, Second English Master; S. Woods, M.A., Assistant Master in College and Boarding House; S. Westmacott, Drawing Master; Capt. Goodwin, Fencing, Drill, and Gymnastics.

The College year commences with the Autumn Term.

The Autumn Term begins September 10; Winter do., Nov. 20; Spring do., Feb. 15; Summer do., May 1. Reports of the progress and conduct of the pupils are sent to parents twice each Term, or oftener if desired. Deducing the Vacations, the Terms are ten weeks each. The Tuition Fee is \$10 for one Pupil, \$9 each for two (Brothers), \$8 each for three (Brothers), \$7 each for four (Brothers); and the Fee for Boarders, inclusive of Tuition, is \$45 per Term. The many improvements made in the arrangement of the College Boarding House have been found to add very materially to the comfort of the boarders. A large paved Ball Court and a Gymnasium, fitted up with the most approved modern appliances, and a spacious play-ground and cricket ground afford ample facilities for out-door exercise and amusement within the College bounds. The Boarding House is conducted strictly as an integral part of the Institution, its disbursements paid out of, and its returns paid into, the general funds. Prizes of books and certificates of honor are given every year to those who distinguish themselves in any of the subjects taught in the College. His Excellency the Governor General offers annually a valuable Prize of Books for the best examinations in the higher departments of the College Curriculum. At the Annual Public Examination in July Exhibitions are competed for, varying in value from \$120 to \$40 per annum. Competition for them all is open to the Grammar Schools of the whole Province. More than 2,500 of the youth of the Province have received their education, in whole or in part, in Upper Canada College. The First Classical, and the Mathematical Masters, were pupils of the Institution; as were likewise the greater portion of the Medal-men, Scholars, and Honor-men of our Universities.

THE CANADIAN LITERARY INSTITUTE is located at Woodstock, and is under the control of the Regular Baptist Denomination. It has three different departments, viz.: Primary, Higher and Theological, the average attendance on which consists of fully 100 students. The Primary School is attended by pupils over eleven years of age, who study the various branches of an ordinary English education. In the Higher Department the students are prepared for the study of Theology, or for matriculation in Arts, Law or Medicine. The fees for attendance on these departments vary from \$20 to \$28 per year. In the Theological Department, attended by about 30 students, the tuition is *gratis*. The year is divided into three terms of about thirteen weeks each, commencing the second week of Jan., April and Sept., respectively. *Faculty of Instruction*.—Rev. R. A. Fyfe, D.D., Principal, and Prof. of Theology; Rev. Wm. Stewart, B.A., Classical and Hebrew Tutor; C. B. Hankison, B.S., Mathematical Tutor; W. D. Ballantyne, Teacher of English and French; P. S. COMMON SCHOOLS.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage its School affairs. In cities, towns, and villages, the schools are managed by a Board of School Trustees, elected for the Municipality. There were 4,019 Common Schools, with 329,918 pupils, in Upper Canada, in 1861.

PUBLIC SCHOOL LIBRARIES.—Each School and Municipal Corporation, desirous of establishing Free Public Libraries, is aided by the Educational Department granting 100 per cent. on local appropriations, and supplying books from the Depository in connexion with the Department. Up to the end of Dec. 1861, about 451 Libraries had been established, containing more than 1100 sub-divisions, and 193,220 vols.

EDUCATIONAL MUSEUM.—Connected with the Educational Department is a Museum, containing specimens of School apparatus and furniture; a valuable collection of Italian, Dutch and Flemish Oil Paintings and Statuary casts and busts. The Museum is freely open to the public.

THE TOTAL NUMBER OF EDUCATIONAL INSTITUTIONS of all kinds reported by the Educational Department as in operation in Upper Canada during 1861, was 4,459, attended by 344,118 pupils, and expending \$1,670,023 in their support.

Under the superintendence of the Council of Public Instruction, Lower Canada.

The Ladies of the Ursulines have charge of the boarding department of the female pupil-teachers, and attend to part of the Normal School teaching, and the girls' Model School.

THE BELLEVILLE SEMINARY.—Incorporated, 1857.—This Institution is the property of the Methodist Episcopal Church, but free to all denominations, no religious creed being taught in it, and students being required to attend such places of worship as their parents or guardians may direct. It is affiliated to the University of Toronto. Ample accommodation is afforded for the instruction of two hundred students. Both sexes are included in the provision; ladies being instructed in the ornamental as well as solid branches, and gentlemen being afforded a commercial, mathematical, and classical education. Ladies may take a thorough course of instruction, prepared expressly for them, and receive degrees and diplomas. The following compose the Faculty and Board of Instruction: Rev. A. Carman, M.A., Principal, and Professor of Mathematics, History and English Literature; Rev. H. P. Shepard, M.A., Professor of the Latin and Greek Languages; H. W. Bennett, B.A., Professor of Natural Science, and Rector of English Department. Miss Julia McKellar, Preceptress, and Teacher of Music, Piano, Melodeon and Guitar and the

French Language; Mrs. A. Carman, Assistant in French and Music; Mrs. H. P. Shepard, Teacher of Drawing and Painting of all kinds. Besides the above, others, not of the Faculty, are employed to teach in the institution. The academic year is divided into two sessions; the first session, which consists of twenty-nine weeks, or two terms, commences on the first Thursday in Sept., and ends about the middle of April following; the second session commences on the first Thursday in May, and continues thirteen weeks.

SHARES, \$50 EACH.

Accumulating Shares Mature in Four Years. — New Investing Shares are issued every month. — Dividends on Capital Stock payable Half-yearly.

SAVINGS BANK BRANCH.

Sums of Four Dollars and upwards are received by the Society on deposit, subject to withdrawal, and bearing interest at Six per cent. per annum. The Capital and Assets of the Society, invested in Mortgages on first class Real Estate, being pledged for the security of Money thus received, Depositors are at all times assured of perfect safety.

MONEY TO LEND.

This Institution Advances Money on the security of Improved City or Farm Property, repayable by Instalments payable monthly, quarterly, half-yearly, or yearly, spread over any term the Borrower chooses, from ONE TO TEN YEARS, at the following

REDUCED RATES.

The Farmers' Branch of this Company is in full operation, issuing 100 Policies per month. It is sustained by a special Guarantee Fund of Ten Thousand Dollars, with the names of the Hon. John Hillyard Cameron, Sheriff Smith, W. M. Kelly, Esq., and other influential gentlemen, as Stockholders. No other Farmers' Mutual Company has a Cash Guarantee Fund over and above the security of the premium notes of insurers.

No Risks taken upon Hazardous Property in either the Farmers' or the General Branch.

Farm Property is insured for Three Years, for which a Premium Note of two per cent is taken, and one-fifth called in at a convenient season in each year. It is not expected that more than three-fifths of the Note will ever be called in, unless extraordinary losses are sustained. Persons insuring their own property, may be insured for \$1 cash, besides agent's fees, and will be assessed in three months' time for one-fifth of the premium note, and the same sum annually so long as the Policy is in force; or they may pay one per cent. in cash at the time of insurance, in full of the three years' assessments.

Under the Provincial Statute, 22 Vic., cap. 52, under which this Company is established, insurers in the Farmers' Branch are exempt from all Liability for Losses in the General Branch.

No Risks are taken upon Hazardous Property, such as Mills, Bakeries, Distilleries, and Manufactories generally; and according to the experience of similar Mutual Companies, THE COST OF INSURANCE IN THIS ASSOCIATION ON ISOLATED PROPERTY CANNOT EXCEED A TRIPLE OVER ONE PER CENT. FOR THREE YEARS, or about one-third of the sum charged by Proprietary Companies, which require large profits to cover their heavy office expenses and losses from extra hazardous risks. Owners of Non-Hazardous Property in Cities and Towns may avail themselves of the same Low Rates with those in the country, and will find it to their interest to patronize this office.

THE GREATEST MEDICAL DISCOVERY OF THE AGE.

PERRY'S CORDIAL BALM OF SYRIACUM

RESTORES the impaired powers of life when exhausted by nervous or acquired debility. It has the effect of restoring and increasing the natural vigour of those who are suffering from prostration and languor produced by sojourning in the colonies or in hot climates. Thousands have been restored to health and vigour by its use, as sworn to on oath before the Right Hon. Matthew Wood, Lord Mayor of London, and the following Aldermen,—Sir John Eamarr, George Scholey, Esq., John Atkins, Esq., and others.

Price 11s. per bottle, or four quantities in one for 33s. which saves 11s.; and in £5 bottles, effecting a saving of £1 12s.

PERRY'S CONCENTRATED DETERGENT ESSENCE, is recommended for all those diseases for which mercury, &c., are not only employed in vain, but too often to the utter ruin of health. Its action is purely detergent, and its beneficial influence on the system is undeniable. Price 11s. and 33s. per bottle, also a saving of 11s.

PERRY'S PATENT CONCENTRATED ESSENCE OF COPAIBA AND CUBEBS SUGAR-COATED GLOBULES.

An agreeable preparation of the very essence of the Balsam of Copaiba and Cubebs, perfectly tasteless, still retaining at the same time all its curative powers. In all cases of Gonorrhoea, Gleet, Stricture, &c., a single trial will prove the efficacy of this invaluable remedy; as it at once acts upon the kidneys, bladder, and the urino-genital organs, restoring them to their healthy state. Price 11s. and 33s. per box.

HEALTH DEPENDS UPON PURE BLOOD.

PERRY'S PURIFYING SPECIFIC PILLS, an infallible cure for all diseases of the skin, such as scurvy, scrofula, ulcers, boils, blotches, pimples on the face and body, &c. Price 11s. and 33s. per box.

ON NERVOUSNESS, RELAXATION AND EXHAUSTION.—New edition, enlarged to 100 pages, illustrated by 100 Anatomical coloured Engravings on steel, just published, price 2s. 6d.

THE SILENT FRIEND, a medical work on the nature, treatment, and cure of nervous and physical debility, exhaustion, spermatorrhoea, and all urino-genital diseases of the nervous system, and other diseases.

Also to be had from all Agents in all parts of the world, EXTRACTS FROM THE SILENT FRIEND, Price 6d., which contains directions for the guidance of patients, and is included in the price charged for the medicines.

G. & C. MERRIAM, Springfield, Mass.

“The eighty pages of Illustrations, comparable in fineness to those of bank notes, are worth the price of the book.”—*Ch. Herald.*

PICTURES IN A DICTIONARY.—A neat cut or diagram will often give a better definition of a term than a page of letter press. In respect to size, completeness, mechanical execution, and variety of subjects, Webster's are unquestionably the best. Worcester's, though many of them are well enough, are, on the whole, a failure. They are very small, many of them are obscure, and the assortment ill-proportioned. Ornithology, somehow, achieved a singular monopoly in their allotment. Of 973 cuts in all, 324, or one-third, are birds or fragments of birds; and of this 324, no less than 191 are merely heads or bills of birds. Botany has 144; Quadrupeds, &c. the same; Fishes, 77; Mathematics and Mechanics, together, about 100; Architecture 80; Miscellaneous, Domestic Arts, &c., 70; and Physical Science, a few. Reptiles and Insects are as rigorously excluded as from Ireland.—*New Englander.*

WEBSTER'S GREAT DICTIONARY.—We learn with much pleasure from the publishers, Messrs. G. & C. Merriam, Springfield, Mass., that the new Pictorial Edition of "Webster's Unabridged Dictionary" is having a very extended sale. Every school, every office, may every dwelling, should be provided with it. It is the standard not only for spelling and definition, but also for correct pronunciation. The amount of general information which is also condensed within its pages is truly astonishing. In the course of a very extensive professional practice we have frequent necessity to seek out and apply the best technical terms and descriptions. Webster is our constant recourse, and we never consult him in vain. It is surprising to observe how replete the work is. As an educational medium it enjoys a very high reputation. For the schools of New York state no less than ten thousand copies have been purchased, while in Massachusetts, Michigan, New Jersey and Wisconsin an equal number has been obtained, or one copy for almost every school. It is said that more than ten times as many copies of Webster are sold as of any other similar publication.—*Scientific American, May, 1862.*

No. 79 FRONT STREET, TORONTO,

HAVE just completed their **NEW MAP** of **UPPER CANADA**, exhibiting Counties, Townships, Concessions and Lots, with the Numbers, Cities, Towns and Villages, Country Post Offices, &c. &c., being on a larger scale and far more complete and accurate than any other Map published.

Have also on hand **DESCRIPTIVE MAPS** of the Counties of Oxford, Brant, Norfolk, Halton Peel, York, Ontario, Waterloo, Durham, Middlesex, Lincoln, Welland. In progress and about to be published, Elgin, Prince Edward, and Perth. Also a **MAP OF LOWER CANADA**, somewhat similar to the **MAP OF UPPER CANADA**.

THE REVUE MAPS.

A CARD TO THE PUBLIC.

We wish to expose the deception being passed upon the Public by certain parties interested in the sale of a work styled "**TACKABURY'S MAP OF CANADA WEST.**" This Map has been represented to the Public all along as executed in Canada, and a large number of the Subscribers to the Map have been influenced by such representations. When the fact is, the Map has been drawn, engraved, printed and coloured, altogether, in New York; and though, to give some colour to their statements, a part of the Maps have been mounted in London, many of them have been sent from New York all finished and ready for delivery to the Subscribers. It has been also claimed that their Map would be "on Copper," and therefore incomparably superior to ours. We have lately learned and are prepared to prove that their Map is printed from Lithographic Stones in precisely the same manner as ours; and as for its superiority, the two Maps were exhibited at the late Provincial Exhibition in this City, side by side, being entered in the same class, when our Map took the **HIGHEST PRIZE** over theirs, and a Diploma also, while they got none for their Map. In order to get into the market a-head of us, they brought out their Map in so incomplete a state that they have already had to make many important alterations and additions, as any one can see by comparing the Maps delivered first and those that they are now delivering; and now they coolly "Caution the Public against certain parties who have rented rooms in Toronto, and are hurriedly getting out a Cheap Lithograph Imitation of their Maps, styled Tremaine's Map of Upper Canada, &c. &c. &c."

If the public will bear in mind the fact, that we have been engaged for the last eight years collecting the materials for this Map, during which time we have got up Descriptive County Maps of sixteen of the oldest and most wealthy Counties in Upper Canada—and that four years ago, at an expense of several thousand dollars, we fitted up an Establishment in this City, where all of the work upon our Maps has since been done—and that during this time we have expended tens of thousands of dollars in the Province, for wages, materials, &c. &c.—and that the Messrs. Tackabury have never resided in the Province until they came here with Specimen Sheets of their Map to commence the canvas for it, but have used our County Maps in the construction of a large portion of their Map—they will be able to estimate the deception, falsehood and downright meanness, that these parties have resorted to in the canvas for their Map. As a further refutation of the charge of copying their Map, we take this opportunity to mention some things on our Map not shown on theirs, viz., the Algoma District, a large and important portion of Upper Canada, containing already about 5,000 inhabitants, with fifteen Townships laid out in farm lots. The survey of the Townships of Dalton, Digby, Ryan, Longford, Oakley, McLean, Hindon, Ridout, Stephenson, Sherborne, Guilford, Harburn, Dysart, Dudley, Harcourt, Monmouth, Cardiff, Chandos, Glamorgan, Cavendish, Cashel, Richards, Hagarty and Lyndock; also the Nipissing Road; a large portion of the Pettawa and Maganetewan Rivers, &c. &c. &c. Several of these Townships they have already added to their Map, and they will undoubtedly have the whole soon copied.

THE GREAT AMBASSADOR OF HEALTH TO ALL MANKIND!

HOLLOWAY'S PILLS & HOLLOWAY'S OINTMENT

A BOON TO THE SICK!

The want of a sterling medicinal to meet the ill and necessities of the suffering portion of humanity, and one entirely free from mineral and other deleterious particles, was severely felt till this all powerful Medicine was ushered into the world; HOLLOWAY'S INVALUABLE PILLS have become the HOUSEHOLD REMEDY of all nations. Their attribute is to prevent as well as to cure; they attack the RADIX or ROOT of the complaint, and thus by removing the hidden cause of disease reinvigorate and restore the drooping energies of the system, assisting nature in her task of VITAL and FUNCTIONARY REFORMATION.

DYSPEPSIA.—The great scourge of this continent yields quickly to a course of these antiseptic Pills, and the digestive organs are restored to their proper tone; no matter in what hideous shape this hydra of disease exhibits itself, this searching and unerring remedy disperses it from the patient's system.

GENERAL DEBILITY AND WEAKNESS.—From whatever cause, LOWNESS OF SPIRITS, and all other signs of a diseased Liver, and other disorganization of the system, vanish under the eradicated influence of this all powerful antiseptic and detergent remedy.

BILIOUS DISORDERS.—The proper quantum and right condition of the bile is of momentous importance to the health of the human frame, this ANTI-BILIOUS medicine expels the hidden seeds of the complaint, and renders all the fluids and secretions pure and fluent, cleansing and resuscitating the vital functions of the body.

Holloway's Pills are the best Remedy known in the world for the following Diseases.

Asthma, Bowel Complaints, Coughs, Colds, Chest Diseases, Costiveness, Dyspepsia, Diarrhoea, Dropsy, Debility, Fever and Ague, Female Complaints, Headaches, Indigestion, Influenza, Inflammation, Inward Weakness, Liver Complaints, Lowness of Spirits, Piles, Stone and Gravel, Secondary Symptoms, Venereal Affections, Worms of all kinds.

CAUTION!—None are genuine unless the words "HOLLOWAY, NEW YORK AND LONDON," are discernible as a WATER-MARK in every leaf of the book of directions around each pot or box; the same may be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

* Sold at the Manufactories of Professor HOLLOWAY, 80 Maiden Lane, New York, and by all respectable Druggists and Dealers in Medicine throughout the United States and the civilized world, in boxes at 25 cts., 63 cts. and \$1 each.

There is considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

THESE DICTIONARIES have received the approval of the most eminent literary men, both in England and America. The Royal Quarto Dictionary, although first published in January, 1860, has already become the standard work in most of the literary institutions in the country; while the smaller works, especially the Comprehensive and the Primary School Dictionaries, have been extensively introduced into the best Academies and Common Schools in the United States and Canada. Specimen pages sent on application.

OUTLINES OF UNIVERSAL HISTORY,

From the Creation of the World to the Present Time.

BY DR. GEO. WEBER, PROF. AND DIRECTOR OF THE HIGH SCHOOL, HEIDELBERG.

8vo. 575 PAGES, PRICE \$1 67. SENT BY MAIL ON RECEIPT OF PRICE.

The English edition of this work was translated by Dr. M. Behr, Professor of German Literature in Winchester College, and the American edition was prepared by Professor Bowen, of Harvard College. This work has met with unprecedented favor, and has become the Standard Text-Book in many of the Colleges, Academies, and High Schools in the United States. The recommendations received by the publishers would fill a volume. All unite in saying that it is the best compend of Universal History ever published. A valuable Index has recently been added, wherein the pronunciation of the names mentioned in the work is accurately represented.

OUTLINES OF ENGLISH HISTORY,

Explanation of the Articles of the Calendar.

These pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy for every city in Canada.

MOON'S PHASES.—This Table gives the times for the two meridians when the moon passes the geocentric longitudes of 0°, 90°, 180° and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this table are given the times at which twilight begins in the morning and ends in the evening, *i. e.*, the times when the sun's centre is 18° below the horizon.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45°. When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following table.

Degrees of Latitude.....	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	-5' 58"	-4' 5"	-2' 5"	0' 0"	+2' 12"	+4' 32"	+6' 59"	+9' 34"	+12' 18"
2nd Correction for each minute of latitude.....	+ 1.9"	+ 2.0"	+ 2.1"	+ 2.2"	+ 2.3"	+ 2.5"	+ 2.6"	+ 2.7"	

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar, or added to it, according as the degrees of latitude are less or greater than 45°.

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the table by the number of minutes in the latitude.

Thus for latitude 43° 20'...1st correction = -4' 5"	2nd correction + 2.0 × 20 = + 40"
" " 47° 40'... " + 4' 32"	" " + 2.5 × 40 = 1' 40"
" " 45° 10'... " + 0' 0"	" " + 2.2 × 10 = 0' 22"

THE PLANETS.—The times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of Toronto.

When the planetary day is shorter than the mean solar day, and commences soon after the midnight of the preceding day, the planet will sometimes arrive a second time on the meridian before the expiration of the actual civil day. From analogous causes a planet will sometimes rise twice or set twice in the same civil day. When two culminations occur in the same day, or two risings or settings, the times of both are registered.

The times of the SUN'S RISING AND SETTING are given for the upper limb, and are corrected for refraction both for Toronto and Quebec.

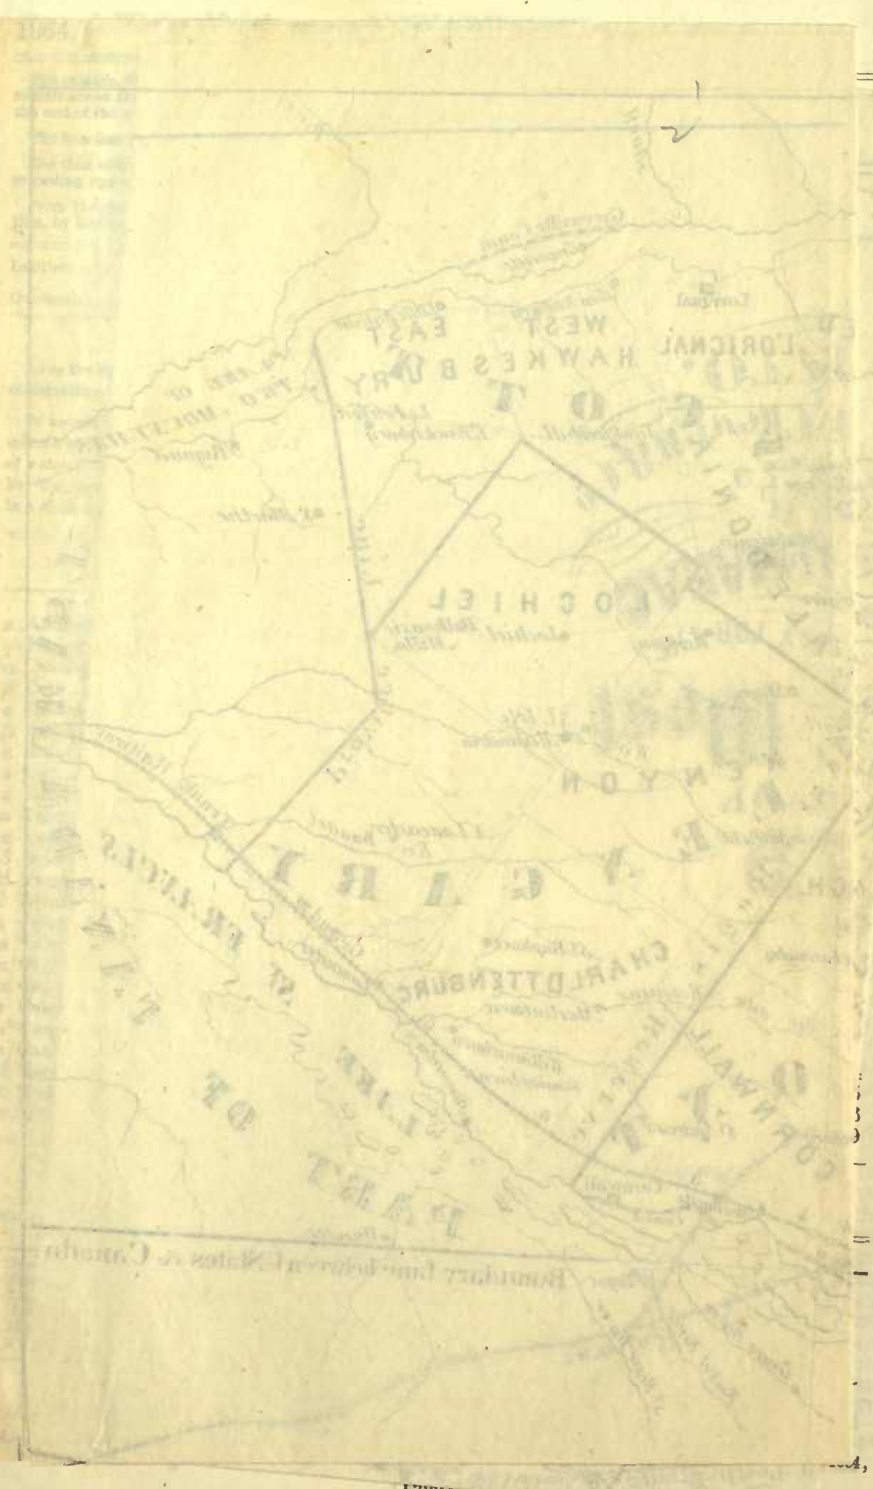

The civil times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

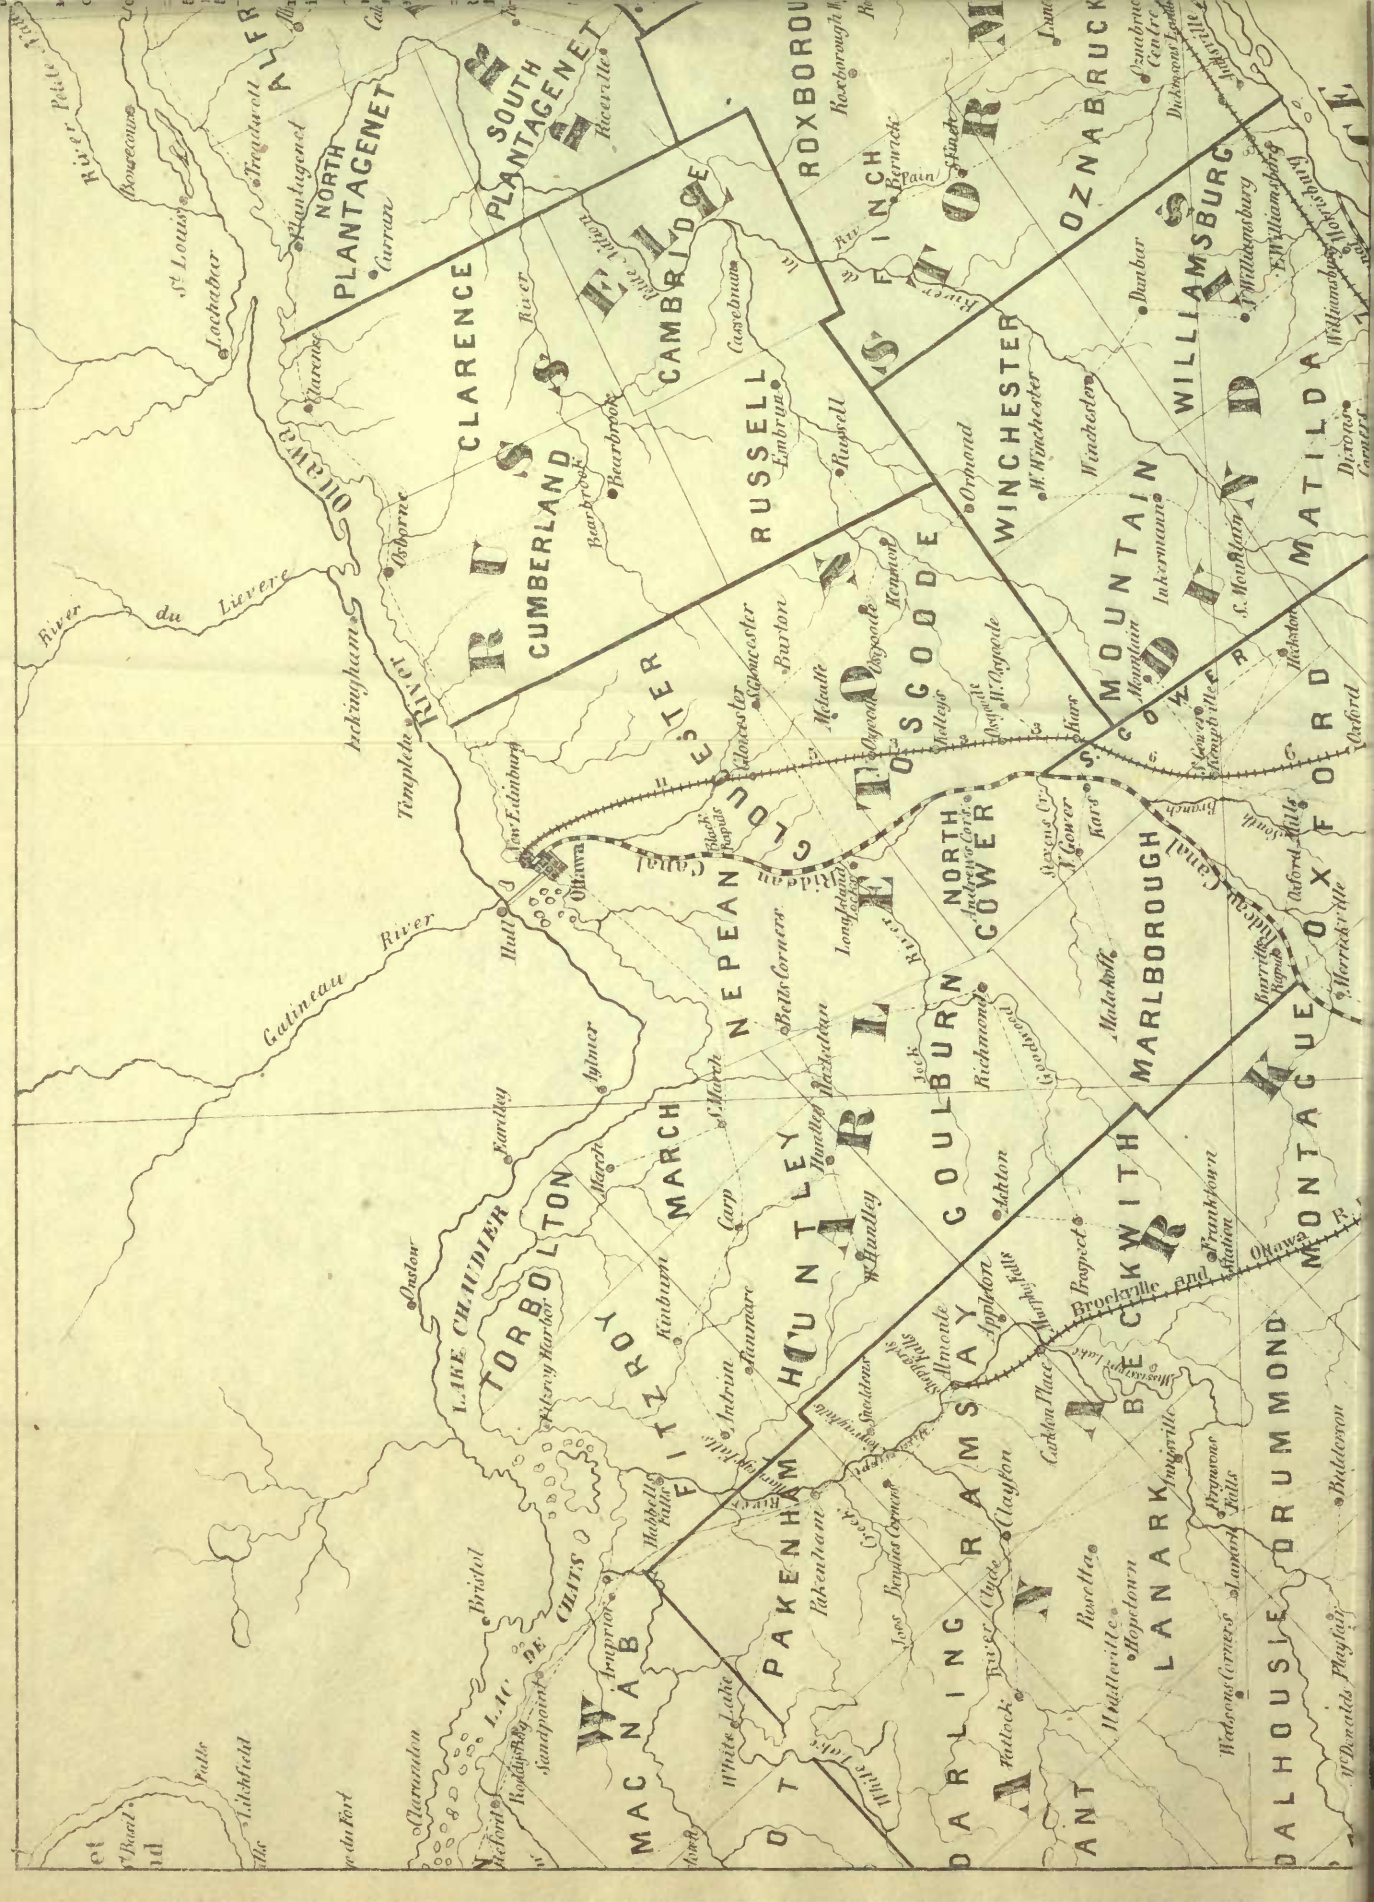

The MOON'S MERIDIAN ZENITH DISTANCES are given to the nearest tenth of a degree for Toronto. They are not corrected for parallax or refraction.

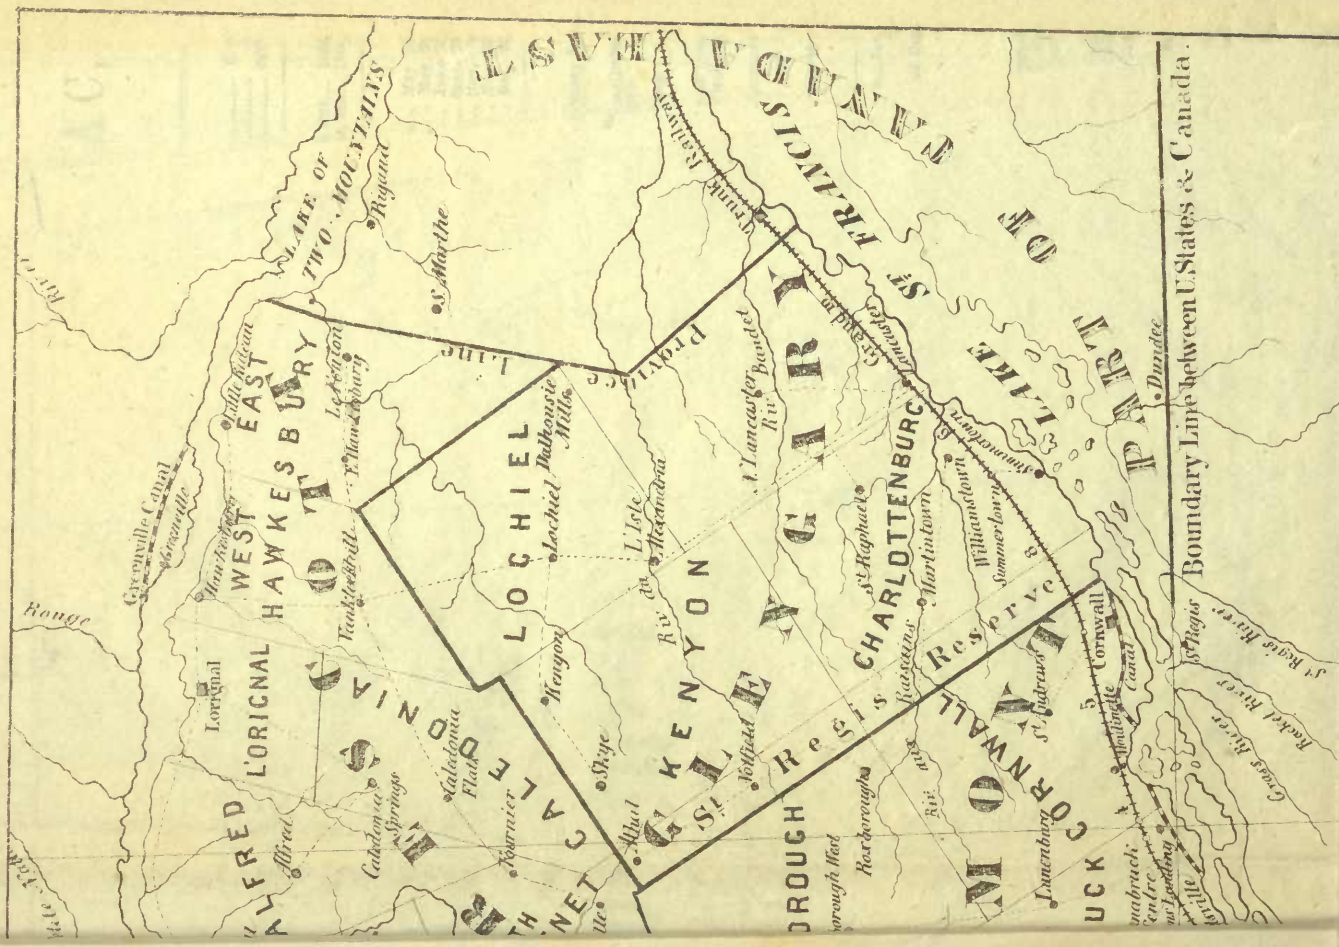

The column SUN ON MERIDIAN gives the time that a watch should shew when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shews to the nearest tenth of a day the Moon's age at Toronto Noon.

The column, MOON ON THE MERIDIAN, gives the mean time at which the moon's centre passes the meridian of Toronto. When in the column headed Moon's rising or setting or Moon on meridian the letters A.M. occur, unaccompanied by any number, they denote that the numbers given for the succeeding days relate to the morning, and those for the preceding days to the afternoon, but that the Moon does not rise or set or cross the meridian (as the case may be) on that day.

The column, UPPER TRANSIT OF POLE STAR shews for every day the mean time at which the Pole Star makes its upper transit across the meridian of Toronto. It passes in the morning from April 9 to October 8, and in the afternoon for the rest of the year, excepting on October 9, when it does not cross the meridian.

The four last columns, although computed for Toronto, will serve with sufficient accuracy for the whole of Canada.

The time at which the lower transit of the Pole Star occurs may be found by adding 11 h. 58 m. 2 s. to the time of its preceding upper transit.

From the time of the upper transit of the pole star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following table will be on the meridian, *add* the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, *subtract* the number opposite to it in the right-hand column of figures from the time of its meridian passage. For the *setting* of a Star, *add* the same number to the time of its meridian passage. Those stars marked (.....) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Eclipses.

In the year 1864 there will be two Eclipses, both of the Sun.

I.—An Eclipse of the Sun, May 5, 1864, invisible in Canada. II.—An annular Eclipse of the Sun, October 30, 1864, invisible in Canada.

The mean value of the variation of the compass or magnetic declination at Toronto, for the year 1864, will be *probably* about 2° 23' W. The magnet has a general westerly movement, of which the mean monthly value is at present 0° 27' nearly, and by aid of which the mean value of the declination for each month may be obtained.

The magnet attains its greatest easterly elongation in the diurnal period about 8 a.m., and its extreme westerly elongation from 1 p.m. to 2 p.m. The positions of the magnet at the hours of extreme elongation on the average of the year are distant about 5' from the mean position, but are more widely apart in summer than in winter.

The hours in which the disturbances which affect the declination are commonly less than the average are from 10 a.m. to 7 p.m.; the three most tranquil hours being 1 p.m., 2 p.m. and 3 p.m.

HOLY DAYS, MORAL MAXIMS, PROVERBS, &c.

JANUARY.

A sure means to become inaccessible to disappointment is to become penetrated with the inconstancy of fortune, and to be prepared for all her capriciousness.

PLUTARCH.

That is a two-fold knowledge which profits alike by the folly of the foolish and the wisdom of the wise; it is both a shield and a sword; it borrows its security from the darkness and its confidence from the light. COLTON.

- 1 F *Circumcision.* Sufficient for the day is the evil thereof.
- 2 S On a fool's beard the barber learns to shave.
- 3 S *2d aft. Xmas.* Every one feels his own burden heavy.
- 4 M When a thing is done advice comes too late.
- 5 T Nothing falls into the mouth of a sleeping fox.
- 6 W *Epiphany.* Easy to say is hard to do.
- 7 T To a bold man fortune holds out her hand.
- 8 F He pulls at a long rope who desires another's death.
- 9 S He cannot be a friend to any who is his own enemy.
- 10 S *1st aft. Epiph.* After mischance every one is wise.
- 11 M Nothing is impossible to a willing mind.
- 12 T The receiver is as bad as the thief.
- 13 W Beauty and folly are often companions.
- 14 T It is well to fly low on account of the branches.
- 15 F A good swordsman is never quarrelsome.
- 16 S The sheep that is too tame is sucked by many lambs.
- 17 S *2nd aft. Epiphany.* Ill luck is good for something.
- 18 M A 100 years is not much, but never is a long while.
- 19 T Every one should sweep before his own door.
- 20 W As you make your bed so must you lie on it.
- 21 T A man who wants bread is ready for any thing.
- 22 F Twixt the word and the deed there is a long step.
- 23 S Precious ornaments are put into small boxes.
- 24 S *Sextagesima.* God's work is soon done.
- 25 M *Omne. of Paul.* Drop by drop wears away the stone.
- 26 T A foolish woman is known by her finery.
- 27 W He has great need of a fool who makes himself one.
- 28 T He knocks boldly at the door who brings good news.
- 29 F He is past preaching to who does not care to do well.
- 30 S He that would eat the kernel must crack the nut.
- 31 S *Sexagesima.* A great talker is a great liar.

FEBRUARY.

Present fear begetteth eternal security. Fear God, which is above all, and no need to fear man at all.

ST. AUGUSTINE.

Know your opportunity, and do not speak beforehand of that which you will do. Should your project fail, you will furnish subject for ridicule to those who are jealous of you.

THALES.

- 1 M One must needs like what one cannot hinder.
- 2 T *Pari. B.V.M.* One must be either anvil or hammer.
- 3 W Never sell the bear's skin till you have killed the bear.
- 4 T One scabby sheep is enough to spoil the whole flock.
- 5 F There is no pride like that of a beggar grown rich.
- 6 S There is nothing so well done, but may be mended.
- 7 S *Quinquagesima.* It is only good bargains that ruin.
- 8 M The only way to keep a secret is to say nothing.
- 9 T *Silence.* At shrove tide everyone needs a frying pan.
- 10 W *Ash W.* Turn your tongue seven times bef. speaking.
- 11 T There is no bush so small but casts its shadow.
- 12 F Better be mad with all the world than wise alone.
- 13 S There are more foolish buyers than foolish sellers.
- 14 S *1st in Lent.* There is remedy for everything but death.
- 15 M The fault is great in proportion to him who commits it.
- 16 T Fortune can take from us only what she gives us.
- 17 W Money is a good servant, but bad master.
- 18 T Wash a dog, comb a dog, still a dog remains a dog.
- 19 F Life is half spent before one knows what life is.
- 20 S Misfortune comes on horseback & goes away on foot.
- 21 S *2nd in Lent.* The greatest cunning is to have none.
- 22 M He is the wisest man who does not think himself so.
- 23 T The rich man has more relations than he knows.
- 24 W *St. Matthias.* The tree does not fall at the first stroke.
- 25 T Fools invent fashions and wise men follow them.
- 26 F Many a one is good because he can do no mischief.
- 27 S A bad workman never finds a good tool.
- 28 S *3rd in Lent.* Little presents maintain friendship.
- 29 M Better a slip of the foot than of the tongue.

MARCH.

Fix'd to no place, the wev'ell sways about,
Obedient to th' uncertain wav'ring blast;
But when the wind has ceas'd to blow, in doubt,
The wev'ell to one point is fix'd at last.
Valu heart! go search the world's remotest nook,
Pry into all, examine every book,
With equal thirst and hunger still oppress'd,
In God, the Lord, thou'lt find alone true rest.

- 1 T *David.* A friend is known in time of need.
- 2 W Spit not in the well, you may have to drink its water.
- 3 T Don't find fault with what you don't understand.
- 4 F No one is so liberal as he who has nothing to give.
- 5 S Eat bread at pleasure, drink wine by measure.
- 6 S *4th in Lent.* Think much, say little, write less.
- 7 M He asks advice in vain who will not follow it.
- 8 F When all other sins are old, avarice is still young.
- 9 W He who begins and does not finish loses his labor.
- 10 F He that reckons without his host must reckon again.
- 11 F He who listens at doors hears more than he desires.
- 12 S Could a man foresee events he would never be poor.
- 13 S *5th in Lent.* He who spares vice wrongs virtue.
- 14 M He who goes to collect wool may come back shorn.
- 15 F If a man would learn to pray let him go often to sea.
- 16 W He had need rise early who would please everybody.
- 17 T Fair is he that comes, but fairer he that brings.
- 18 F He who lives long knows what pain is.
- 19 S See a pin & let it lie, you'll want a pin before you die.
- 20 S *6th in Lent.* Who speaks sows, who listens reaps.
- 21 M Nothing is more like an honest man than a rogue.
- 22 T Without bread and wine even love will pine.
- 23 W Follow the river and you will reach the sea.
- 24 T Some thinking to avenge their shame increase it.
- 25 F *Good F. Annun. V.M.* Man proposes & God disposes.
- 26 S Not every sort of wood is fit to make an arrow.
- 27 S *EASTER DAY.* What is worth receiving is worth ret'g.
- 28 M Every body is wise after the thing has happened.
- 29 T To the jaundiced all things seem yellow.
- 30 W He pays dear for honey who licks it off thorns.
- 31 T Too much scratching smarts, too much talk'g harms.

APRIL.

Let reason guide you at all times, even in the most unimportant things.

PYTHAGORAS.

It is the devil's part to suggest; ours not to consent. As oft as we resist him, so often we overcome him, so often we bring joy to the angels and glory to God; who opposeth us that we may contend, and assisteth us that we may conquer.

S. BERNARD.

- 1 F One fool always finds a greater fool to admire him.
- 2 S One take-time is better than two thou-shalt-haves.
- 3 S *Low Sunday.* Soon gained is soon squandered.
- 4 M The town that parleys is half surrendered.
- 5 T Let us have forins and we shall have cousins.
- 6 W Associate with the good and you will be one of them.
- 7 T There is no helping him who will not be advised.
- 8 F He that laughs on Friday may cry on Sunday.
- 9 S To him who is determined it remains only to act.
- 10 S *2d aft. Easter.* At a good bargain pause and ponder.
- 11 M He who likes drinking is always taking of wine.

- 26 T He who pays well is master of other men's purses.
- 27 W Bud is the sack that will not bear patching.
- 28 T He who makes himself a dove is eaten by the hawk.
- 29 F He that's born to be hanged will never be drowned.
- 30 S Who would have many friends let him test but few.

HOLY DAYS, MORAL MAXIMS, PROVERBS, &c.

MAY.

Despair not that the writing on the tree
So indistinct at first appears to thee:
Of one day's growth was virtue never known;
The light of grace spreads by degrees alone:
Until throughout illumin'd by its ray,
The soul of man made perfect in each way
By faith and works, is fitted to partake
The joys of heav'n for his Redeemer's sake.

- 1 S *Rogation. St. Philip & James.* Silence gives consent.
- 2 M If this world each man has as much as he takes.
- 3 T Where remedies are needed sighs avails not.
- 4 W He who has a bad tongue should have good loins.
- 5 T *Ascension.* It is truth that makes a man angry.
- 6 F Who is in the right fears, who is in the wrong hopes
- 7 S He who builds by the road side has many surveyors
- 8 S *1st aft. Ascen.* He gives twice who gives in a trice
- 9 M Where there is least heart there is most tongue.
- 10 T It is easy to preach fasting with a full belly.
- 11 W He begins to grow bad who believes himself good.
- 12 T It is easy to threaten a bull from a window.
- 13 F Better have an egg to-day than a hen to-morrow.

- 29 S *1st aft. Trin.* The beard does not make the philosopher.
- 30 M The longest way round is the shortest way home.
- 31 T Pride went out on horseback and returned on foot.

JUNE.

Conduct thyself always with the same prudence, as
though thou wert observed by ten eyes and pointed-at by
ten fingers. CONFUCIUS.

Shun the society of the depraved, lest you follow their
pernicious example and lose yourself with them.

PLATO.

- 1 W Many desire the tree who pretend to refuse the fruit.
- 2 T No one ever became poor through giving alms.
- 3 F Hear, see and say nothing, if you would live in peace.
- 4 S Every one knows where the shoe pinches him.
- 5 S *2d aft. Trinity.* Measure three times and cut once.

- 7 T Through being too knowing the fox lost his tail.
- 8 W As you would have a daughter so choose a wife.
- 9 T A wise man does at first what a fool does at last.
- 10 F That is easy to remember which was hard to endure.
- 11 S *St. Barnabas.* Never do evil that good may come of it.
- 12 S *2d aft. Trinity.* Every one for himself and God for all.
- 13 M Women are wise impromptu, fools on reflection.
- 14 T It's a very proud horse that will not carry his oats.
- 15 W There is never enmity between the cook and butler.
- 16 T One hand washes the other and both wash the face.
- 17 F He got out of the mud and fell into the river.
- 18 S It is all one whether you die of sickness or of love.
- 19 S *4th aft. Trinity.* Many a true word is spoken in jest.
- 20 M A pitcher that goes off to the well is broken at last.
- 21 T Revenge a hundred years old has still its milk-teeth.
- 22 W The virtue of silence is a great piece of knowledge.
- 23 T One pair of ears would exhaust a hundred tongues.
- 24 F *St. John Baptist.* What costs little is little esteemed.
- 25 S They who shun the smoke often fall into the fire.
- 26 S *5th aft. Trin.* If you can't bite don't show your teeth.
- 27 M He is a fool who thinks that another does not think.
- 28 T When his head is broken he puts on his helmet.
- 29 W *St. Peter.* A living ass is better than a dead doctor.
- 30 T To be content, let twelve pennies pass for a shilling.

JULY.

All men have their trials and afflictions, but a contented
mind accommodates itself to every vicissitude of life;
neither poverty nor distress, neither losses nor disappoint-
ments, neither sickness nor sorrow, can affect its equani-
mity. DR. BREWER.

Be discreet in your discourse, but much more in your
actions; the first evaporates, the latter endures for ever.

PHOCYLIDES.

- 1 F Apes remain apes though you clothe them in velvet.
- 2 S Everything would be well were there not a "but."
- 3 S *6th aft. Trinity.* Even the best back stumbles once.

- 18 M The sundial counts only the bright hours.
- 19 T A fence between makes love more keen.
- 20 W Fire and water are good servants, but bad masters
- 21 T Early to rise & late to bed lifts ag'n the debtor's head.
- 22 F What is said is said, and no sponge can wipe it out.
- 23 S Never give the skin when you can pay with the wool
- 24 S *4th aft. Trinity.* The key that is used grows bright.
- 25 M *St. James.* The young may die, the old must die.
- 26 T Fortune and misfortune are two buckets in a well.
- 27 W Riches cause arrogance; poverty meanness.
- 28 T High houses are mostly empty in the upper story.
- 29 F A 100 yrs. of wrong does not make an hour of right.
- 30 S In the mirror we see our form, in wine the heart.
- 31 S *10th aft. Trin.* 'Tis the mind ennobles, not the blood.

AUGUST.

Example works more than precept; for words without
practice are but counsels without effect. SERJ. PALMER.

A contented mind is free from the distressing passions
of ambition, covetousness, jealousy, envy, and the like,
which prey like vultures upon the peace of the discon-
tented. DR. BREWER.

- 1 M *Lammas.* God helps those who help themselves.
- 2 T Ever one hair, only one, and the man is bald at last.
- 3 W Buyers want a hundred eyes, sellers only one.
- 4 T Every man is the best interpreter of his own words.
- 5 F Let not thy right hand know what thy left doeth.
- 6 S Light is light, though the blind man see it not.
- 7 S *11th aft. Trin.* As soon as man is born he begins to die.
- 8 M Don't carry your head too high, the door is low.
- 9 T Many a one threatens while he quakes for fear.
- 10 W Who the daughter would win, with ma. must begin.

- 26 F What the eye sees not, the heart rues not.
- 27 S The weeping bride makes a laughing wife.
- 28 S *14th aft. Trinity.* What is no sin is no shame.
- 29 M What three know will soon be known to thirty.
- 30 T When the jest is at its best 'twill be well to let it rest.
- 31 W When a man is down, everybody runs over him.

HOLY DAYS, MORAL MAXIMS, PROVERBS, &c.

SEPTEMBER.

Th' upward soaring spirit ever
Craves the joys of heaven to know.
But, alas, the vain endeavour!
Bondslave of the flesh, below;
Though they be but frail as straw,
Worldly joys more strongly draw.

Throw aside prejudice and thou art saved. Who pre-
vents thee from doing so? MARCUS AURELIUS.

- 1 T When we think to catch, we are sometimes caught.
- 2 F Make a bridge of silver for the flying enemy.
- 3 T The lucky man has a daughter for his first born.

- 11 S 16th *aft. Trinity*. Another's care hangs by a hair.
- 12 M The wise man does not hang his knowledge on a hook.
- 13 T Dung is no saint, but where it falls it works miracles.
- 14 W A blow from a frying pan, if it does not hurt, smuts.
- 15 T He who is in the mud likes to get another into it.
- 16 F Enjoy your little whilst the fool is seeking for more.
- 17 S A grain does not fill a sieve, but it helps its fellow.
- 18 S 17th *aft. Trin.* He who makes a law should keep it.
- 19 M Do what I say well, and not what I do ill.
- 20 T The tongue of a bad friend cuts more than a knife.
- 21 W *St. Matthew*. A long tongue betokens a short hand.
- 22 T Poverty does not destroy virtue, nor wealth bestow it.
- 23 F What is much desired is not believed when it comes.
- 24 S Many kiss hands they would fain see chopped off.
- 25 S 18th *aft. Trin.* Rise early and watch, labor and catch.
- 26 M What does not happen in a year may in a moment.
- 27 T He has much to do who would please every body.
- 28 W In the garden, more grows than the gardener sows.
- 29 T *St. Michael*. None so deaf as he that won't hear.
- 30 F Let not the tongue utter what the head must pay for.

OCTOBER.

The goal of yesterday will be the starting point of
to-morrow. CARLYLE.

It is better to be poor and not have been wanting in
discretion, than to attain the summit of our wishes by a
loose conduct. DIOGENES.

The friendship of the wicked has no duration; but Time
worketh no change in the friendship of the good. ISOCRATES.

- 1 S There is no beast so savage but sports with its mate.
- 2 S 19th *aft. Trin.* God does not smite with both hands.
- 3 M What's everybody's business is nobody's business.
- 4 F If you pay what you owe, you're worth you'll know.
- 5 W For all one's early rising, it dawns none the sooner.
- 6 T Who is tender in everything is a fool in everything.

- 8 S He who tells his own secret will hardly keep another.
- 9 S 20th *aft. Trin.* The absent were never in the right.
- 10 M He who does what he likes does not what he ought.
- 11 T If you would make a thief honest, trust him.
- 12 W The gossips fall out and tell each other truths.
- 13 T He that has no ill luck grows weary of good luck.
- 14 F Do not tell your secrets behind a wall or a hedge.
- 15 S I stubborn & you stubborn, who is to carry the load?
- 16 S 21st *aft. Trinity*. A rolling stone gathers no moss.
- 17 M A friend's fault should be known but not abhorred.
- 18 T *St. Luke*. He who avoids temptation avoids sin.
- 19 W Good words and bad acts deceive both wise & simple.
- 20 F Every one stretches his leg according to his coverlet.
- 21 F The dog that barks much is never good for hunting.
- 22 S Hunger and cold surrender a man to his enemy.
- 23 S 22nd *aft. Trin.* Rather lose the wool than the sheep.
- 24 M He has nothing who is not content with what he has.
- 25 T What was hard to bear is sweet to remember.
- 26 W The blunders of physicians are covered by the earth.
- 27 T Promising is not giving, but serves to content fools.
- 28 F *St. Simon & Jude*. He that does ill never wants excuse.
- 29 S If you would be a good judge bear what everyone says.
- 30 S 23rd *aft. Trinity*. He who knows little soon blabs it.
- 31 M Time and the hour are not to be tied with a rope.

NOVEMBER.

It is sad to die before the time: idle speech! Before
what time? Before that prescribed by nature? But
nature lent life to us only, without fixing the term of its
withdrawal. CICERO.

Our life is taken from us but to give
A better life, wherewith in heav'n to live;
Unquenched, our spirit, by our body's death,
Rises refresh'd, to breathe with purer breath.

- 1 T *All Saints*. Every man's friend is every man's fool.
- 2 W Before you make a friend, eat a peck of salt with him.
- 3 T If he waits long enough, the world will be his own.
- 4 F When the pig has had a belly-ful it upsets the trough.
- 5 S Promises make debts and debts make promises.
- 6 S 24th *aft. Trinity*. Better keep peace than make war.
- 7 M Better a field with the birds than hanging on lords.
- 8 T Nobility of soul is more hono. than nobility of birth.
- 9 W Fool's ask what's o'clock, wise men know their time.
- 1 T Who don't keep faith with God won't with man.
- 11 F He that can be patient finds his foe at his feet.
- 12 S He that will not be counselled cannot be helped.
- 13 S 25th *aft. Trinity*. With the good we become good.
- 14 M He that despises the little is not worthy of the great.
- 15 T A hired horse and one's own spurs make short miles.
- 16 W No greater promisers than they who have not to give.
- 17 T Fortune does not stand waiting at any one's door.
- 18 F The art is not in making money; but in keeping it.
- 19 S Better twice remembered than once forgotten.
- 20 S 26th *aft. Trinity*. Evil words corrupt good manners.
- 21 M He howls with the wolves and bleats with the sheep.
- 22 T A man is not known till he cometh to honor.
- 23 W After honor and state follow envy and hate.
- 24 T Better lose your labor than your time in idleness.
- 25 F Out of the abundance of the heart the mouth speaks.
- 26 S Fire in the heart sends smoke into the head.
- 27 S 1st *in Advent*. Necessity is the mother of invention.
- 28 M He who slanders his neighbor makes a rod for himself.
- 29 T A wound never heals so well the scar can't be seen.
- 30 W *St. Andrew*. Evil does not enter an empty house.

DECEMBER.

There is a jewel which no Indian mine can buy,
No chemic art can counterfeit;
It makes men rich in greatest poverty,
Makes water wine, turns wooden cups to gold,
The homely whistle to sweet music's strain.
Seldom it comes, to few from heaven sent,
That much in little—all in naught—Content.

WILBYE.

- 1 T To know the law and do the right are two things.
- 2 F Better suffer for truth than prosper for falsehood.
- 3 S He who is of no use to himself is of no use to any one.

- 5 M Who knows how to beg may leave his money at home.
- 6 T It is easy to swim when another holds up your hand.
- 7 W Young people must be taught, old ones be honored.
- 8 T *Cm. B.V.M.* He is easy to lure who is ready to follow.
- 9 F It is a great art to laugh at your own misfortunes.
- 10 S He loses least in a quarrel who keeps his tongue still.
- 11 S 3d *in Adv.* When law lacks, honor should eke it out.
- 12 M Words once spoken cannot be washed out with a rag.
- 13 T Contentment is the true philosopher's stone.
- 14 W A willing helper does not wait till he is asked.
- 15 T Father and mother are kind, but God is kinder.
- 16 F Beauty without virtue is like a rose without scent.
- 17 S He who lives without restraint dies without honor.
- 18 S 4th *in Adv.* What youth learns, age does not forget.
- 19 M Beauty is but dress if honesty be lost.
- 20 T No one is rich enough to do without his neighbor.
- 21 W *St. Thomas*. Eggs and oaths are easily broken.
- 22 T Many a man labors for the day he will not live to see.
- 23 F Old friends and old warp ought not to be disclaimed.
- 24 S When every one minds his business, the work is done.
- 25 S CHRISTMAS DAY. Another year will bring Christmas.
- 26 M *St. Stephen*. Man carries an enemy in his own bosom.
- 27 T *St. John Evan*. Fine words without deeds go not far.
- 28 W *Innocents*. Kisses are the messengers of love.
- 29 T If lies were Latin there would be many learned men.
- 30 F A friend's faults may be noticed, but not blamed.
- 31 S The year has a wide mouth and a big belly.

The mean temperature of the year 1862 differed very slightly from the average of 22 years, being only 0°·23 in excess. The monthly means likewise conformed in an unusual degree to their respective averages, the mean deviation without regard to sign being 1°·42 in 1862, while the average of these deviations in 22 years was 2°·45.

As regards the distribution of temperature through the year, the first seven months, with the exception of May, were relatively cold, being on the whole 0°·75 below the average, while the temperature of the remaining five months exceeded the average by 1°·60, and, with the exception of November, were all relatively warm. January and February, though comparatively cold, do not supply examples of very low temperatures, the minimum of the year, -5°·2 on February 15, being the highest minimum that has occurred since 1847, and 7°·0 warmer than the average of the yearly minima. Again, while July was relatively cold it furnishes the highest maximum, 95°·5, that has been recorded since 1856, when the temperature reached 96°·6.

The year was on the whole deficient in rain, the total fall being less than the average by 4.795 inches. The excess of snow, which may be taken as equal to 2.377 inches of rain, still leaves a deficiency of 2.418 inches from the average annual precipitation. The lack of rain that occurred in April, May, and June, was in some degree compensated by the abundant snow in January, February and March, which exceeded by 75 per cent. the usual fall, and served to maintain below the surface an amount of moisture sufficient for the supply of the more deeply rooted plants, and to mitigate the ill effects that might have been apprehended from the drought of the three following months.

In the following summary several of the results of 1862 are compared with the averages derived from a series of years, as well as with extreme values of analogous results that have occurred during the same series.

TEN REASONS FOR EMIGRATING TO CANADA.

The aim of the man who contemplates changing the land of his birth for another being, generally speaking, the improvement of his condition, the question where the circumstances may be looked for most favourable to the realization of his desire, claims his best thought. Such thought he owes to himself, to his family if he has one, and to those among whom he may decide on taking up his abode; because mistake in his choice may involve him and those he loves in disappointment and distress, and entail weakness on those to whom he should bring strength.

In favour of the selection of Canada as his future home, the attention of the intending emigrant is respectfully invited to the considerations which follow.

1. Its accessibility.

Compared with other regions open to him, it may be reached in a very short time (eleven days by steam), at a trifling expense, and with a small amount of inconvenience.

In sailing vessels, the rates of steerage passage vary, according to accommodation, from three pounds to four or five pounds sterling. The charge between Liverpool, Londonderry or Glasgow, and Toronto, by the Montreal Steamship Line, is \$34, including provisions; between Glasgow and Quebec or Montreal, \$29. By the Anchor Line, the charge between Glasgow and Quebec is \$25. The Great Eastern charges \$30 between Liverpool and New York. Its cabin rates are—1st cabin, \$95–\$135; 2d cabin, \$70; 3d cabin, \$50. By the Montreal Line, the cabin passage varies, with accommodation, from \$72–\$88. The cabin fare between Glasgow and Quebec, by the Ocean Line, is \$68; intermediate, \$44. By the Anchor Line, \$60; intermediate, \$50. Children are carried by them all at lower rates, generally half-price.

Once landed at Quebec or Montreal, the emigrant may pass on to Toronto, or Hamilton, or any intermediate

locality, by steamboat or railway; and thence by railway to the western extremity of the province. The Northern Railway will take him to any place he pleases on the route between Toronto and Collingwood, Lake Huron, whence he can pass on to Owen Sound and intermediate places by steamer. The cost of the passage by deck of steamer and second class cars is, from Quebec to Toronto, a distance of 500 miles, about \$5; with corresponding rates for places intermediate; to Windsor, the western extremity of the province, 631 miles from Quebec, \$7 12½; to Barrie, 665 miles, \$5 50; to Collingwood, 593 miles, \$7. The time between Quebec and Toronto is by railway about 36 hours, by steamboat, a day or two longer. Toronto may be reached by railway from Portland, the ocean terminus of the Grand Trunk, in from 25 to 26 hours.

As, moreover, he may return to his old home so much more easily, should he for any reason wish to do so, he is less irrevocably committed by coming here than by going elsewhere. A visit to it is also at any time much more practicable, other things being equal. His friends may likewise, if so disposed, follow him with much less difficulty—thus renewing associations of which necessity had compelled the temporary interruption.

2. *The scope afforded by its extent, both for the successful employment of his capabilities and the gratification of his tastes in the choice of a home.*

Leaving out the territory to the northwest, the opening of which may be looked for ere long, Canada occupies a space, stretching in a south-westerly direction from the Island of Anticosti in the Gulf of St. Lawrence, to the south-western extremity of Lake Erie, of about 1,400 miles in length; with a breadth varying from two hundred to four hundred miles. Including water-surface, it is computed to contain an area of 349,821 square miles—242,452 exclusive of water. The number of acres comprised within it is estimated at 160,405,219—128,659,684 of which are reckoned to Canada East; to Canada West, 31,745,533.

"If an area," it is remarked in a pamphlet published in 1860, by authority, "be traced in Europe, corresponding generally to that occupied by Canada, in America, and the meridian of the most southern part of Canada be supposed to lie upon the meridian of Greenwich, in England, the south of France, at the base of the Pyrenees, will represent the south frontier of Canada; the south-eastern boundary of this area will stretch through France, Switzerland, Bavaria, and Austria, to a point in the south of Poland, and a line drawn northward to Warsaw will delineate the mouth of the Gulf of St. Lawrence. The north-western boundary of this area will extend from the south of France, in a northerly direction, towards and beyond Brest; and a line drawn from near Brest to the British Channel, thence through England, Belgium and Germany, to Warsaw again, will establish the position of a European area, corresponding to Canada in America. The inhabited and highly fertile portion of Canada is represented in this area by those regions which lie in the south, centre and south-east of France, and in those parts of Switzerland, Bavaria and Austria, included within its boundary. The other portion, although of vast extent, and not so well fitted for extended agricultural operations, is highly valuable on account of its timber and minerals."

The Province of Canada embraces about 350,000 square miles of territory, independently of its north-western possessions, not yet open for settlement; it is consequently more than one-third larger than France, nearly three times as large as Great Britain and Ireland, and more than three times as large as Prussia. The inhabited or settled portion covers at least 40,000 square miles, and is nearly twice as large as Denmark, three times as large as Switzerland, a third greater than Scotland, and more than a third the size of Prussia; but such is the rapid progress of settlement through immigration, that in ten years time the settled parts of Canada will be equal in area to Great Britain or Prussia."

According to the Crown Lands Report for 1856, the peninsula of Gaspé alone, which is 175 miles in length, with an extreme breadth of 90 miles, comprises an area, after the deduction of a small portion covered by New Brunswick, of 11,800 superficial miles, equal to that of the European peninsula of Denmark, which it resembles in form. The Tadoussac territory, valued as yet chiefly for its timber trade and its fisheries, is there stated to have a coast of six hundred miles in length on the Gulf and River St. Lawrence, with a breadth of 160 miles and an area of probably 65,000 square miles; more than twice that of Scotland. The country drained by the Saguenay includes an area of 27,000 square miles, an extent equal to

the Tyrol and Switzerland taken together. The quantity of land in it capable of cultivation is estimated at about 3,000,000 acres. The area drained by the St. Maurice is about 21,000 superficial miles; about one-tenth larger than the main land of Scotland, and containing about as much arable land. "Admirably watered, and intersected by magnificent rivers, with forests of pine alternating with rich tracts of hardwood land, and with that most valuable of all minerals, iron ore, in unlimited quantities, the country wants but the hand of man and the course of a few years to make it equal to the most flourishing parts of Canada." The area of the Ottawa and tracts therewith connected is estimated at 82,000 miles; one-fourth greater than that of the New England States.

In the Great Manitoulin Island, which contains about 3,000,000 acres, upwards of 200,000 acres are expected soon to come into market. On the north sides of Lakes Huron and Superior there remains to be noticed an area of about 48,000 miles; one-half greater than that of the State of Maine.

Regions so vast afford certainly ample room and verge enough, and will do for some time to come. Should they, however, become too strait, we have the North West to fall back upon, one-fifth of which, the Red River and Saskatchewan country, is computed to contain a territory exceeding in extent the empires of France and Austria united.

3. *The physical characteristics of the country, its natural resources, and its healthfulness.*

The variety of its products and abundance of its harvests attest, where proper care is bestowed on its cultivation, the excellence of its soil. And although in the longer settled parts of the country the best lands may be supposed to be occupied, and therefore attainable only at a considerable advance on the original prices, others quite equal to them are to be found in the newer regions which every year is bringing into the market. According to the Crown Land report for last year, there are now in the hands of the Government (surveyed) for disposal 5,908,557 acres, in Lower Canada; in Upper Canada, 2,839,358½—in all, 8,747,915½—varying in price with situation.

"In Upper Canada, it is 70 cents per acre for cash, or one dollar when paid in instalments—one at the time of purchase, and the remainder in four equal annual payments with interest. In Lower Canada, the highest price is 60 cents, but the larger quantity is disposable at 30 cents per acre. In the Algoma District, Upper Canada, and in those of Gaspé and Saguenay in Lower Canada, the price is only 20 cents. The condition of settlement is exacted in all cases.

Through these newer lands seven great roads have recently been laid out in Upper and five in Lower Canada. The Upper Canada roads are—1. "The Ottawa and Opeongo road," which runs east and west, intended to be 171 miles in length, and to connect the Ottawa river with Lake Huron,—of this, 62 miles are finished, on which 235 settlers are already located. 2. The "Addington Road," which intersects the Opeongo Road,—on this, which is about 61 miles in length, there are 178 settlers. 3. "The Hastings Road," running nearly parallel to the Addington Road, and connecting the county of Hastings with the Ottawa and Opeongo Road, 68 miles in length,—on which there are 306 settlers. 4. "The Bobcaygeon Road," running north from Bobcaygeon, between the counties of Peterborough and Victoria, meant to be continued to Nipissing,—the number of miles completed is 36, the number of settlers 168. 5. "The Frontenac and Madawaska Road," of which the number of miles completed is 33. 6. "The Muskoka Road," which runs from the head of the navigation of Lake Couchiching to the Grand Falls of Muskoka, where it will intersect what is called Peterson's line, which will eventually meet the Ottawa and Opeongo Road, now gradually opening westwardly. By this road, the intending settler can reach the centre of the county in one day from Toronto, whence he will proceed by Northern Railway to Lake Simcoe, and thence by steamer,—21 miles are completed. 7. "The Sault Ste. Marie Road," intended to run from Sault Ste. Marie to Goulais Bay,—four miles of which are completed.

The five in Lower Canada are "The Elgin Road," in the county of L'Islet, 38 miles in length, from St. Jean Port Joli to the Provincial Line; "The Montreal and Cap Chat;" "The Taché Road," from Buckland, county of Bellechasse, to Kempt Road, Rimouski, about 200 miles; "The Temiscouata Road," from River du Loup to Lake Temiscouata; and "The Kempt Road," from Metis to Restigouche.

Along these roads, free grants, not exceeding 100 acres

in each case, are given by the government for the purpose of facilitating settlement, on the following conditions.

1. That the settler be eighteen years of age.
2. That he take possession of the land allotted to him within one month.
3. That he put into a state of cultivation 12 acres of land in the course of four years.
4. That he build a log house, 20 by 18 feet, and reside on the lot until the foregoing conditions are fulfilled.

"Families may reside on a single lot, and the several members having land allotted to them will be exempt from building and residence on each individual lot. The non-fulfilment of these conditions will cause the immediate loss of the land, which will be sold or given to another. The lands thus opened up, and gratuitously offered by the government for settlement, are chiefly of excellent quality, and well adapted in respect of soil and climate, to all the purposes of husbandry.

"The reports of the resident agents on these roads, for the past year, convey the most favourable accounts of the prosperity of the settlers thereon, and of the large amount of produce they have raised on the newly-cleared lands."

In the Crown Lands Report for 1862, similar accounts are given; though a late statement excepts certain parts of the Opeongo Road, which are said to be so rocky as to be incapable of cultivation.

In its mines, in its forests, and in its fisheries, Canada has stores of untold, of almost inconceivable wealth; which its numerous lakes and rivers supply facilities for conveying to market.

Of metallic minerals, the following are enumerated in a catalogue contained in "Canada at the Universal Exhibition, in 1855," to wit, Magnetite Iron Ore, Specular Iron Ore, Limonite (Bog Ore), Titaniferous Iron, Sulphate of Zinc (Blende), Sulphate of Lead (Galena), Copper, Nickel, Silver, Gold. Non-metallic—Teranium, Chromium, Cobalt, Manganese, Iron Pyrites, Graphite, Dolomite, Carbonate of Magnesia, Sulphate of Baryta, Iron Ochres, Steatite, Lithographic Stone, Agates, Jasper, Labrador Felspar, Aventurine, Hyacinthine, Cornudum, Amethyst, Jet, Quartzose Sandstone. Retinite and Basalt, Gypsum, Shell Marl, Phosphate of Lime, Millstones, Grindstones, Whetstones, and Tripoli. Under the head "Building Materials," are specified, Granites, Sandstone, Calcareous Sandstone, Limestones, Hydraulic Limestones, Roofing Slates, Flagging Stones; Clays suitable for the formation of red and white bricks, tiles and coarse pottery; Moulding Sand, Fuller's Earth; and Marbles, white, black, red, brown, yellow and black, grey and variegated, and green. Of combustibles—Peat, Petroleum and Asphaltum, are named. Some of these are confined to a single locality, others to a few places, but the more useful of them are widely distributed and their quantities very great.

Though our fisheries are as yet in their infancy, they employ from 1,200 to 1,500 boats, with nearly 100 vessels. The annual value of their products is, for Lower Canada, \$942,528; for Upper Canada, \$380,000; total, \$1,322,528.

Exclusive of furs, the products of the forest amounted, in 1860, to \$11,012,253.

Our climate, notwithstanding the extremes of cold and heat to which it is liable—which, however, are often greatly exaggerated,—is eminently favourable, as the tables of long-wit and the habits of the people prove, both to life and enjoyment.

According to Professor Guy, the proportion of deaths to the population is, in

Austria	1 in 40.	Belgium	1 in 43.
Denmark	1 in 45.	England	1 in 46.
France	1 in 42.	Norway & Sweden	1 in 41.
Portugal	1 in 40.	Prussia	1 in 39.
Russia in Europe	1 in 44.	Spain	1 in 40.
Switzerland	1 in 40.	Turkey	1 in 50.
United States	1 in 74.	Upper Canada	1 in 102.
Lower Canada	1 in 92.	All Canada	1 in 98.

"The salubrity of the Province," remarks Mr. Hogan, from whom we have taken the above table, "is sufficiently proved by its cloudless skies, its elastic air, and almost entire absence of fogs. The lightness of the atmosphere has a most invigorating effect upon the spirits. The winter frosts are severe and steady, and the summer suns are hot, and bring on vegetation with wonderful rapidity. It is true that the spring of Canada differs much from the spring of many parts of Europe; but after her long winter the crops start up as if by magic, and reconcile her inhabitants to the loss of that which, elsewhere, is often the sweetest season of the year. If, however, Canada has but a short spring, she can boast of an autumn deliciously

mild, and often lingering on, with its Indian summer and golden sunsets, until the month of December.

"A Canadian winter, the mention of which some years ago, in Europe, conveyed almost a sensation of misery, is hailed rather as a season of increased enjoyment than of privation and discomfort by the people. Instead of alternate rain, snow, sleet and fog, with broken up and impassable roads, the Canadian has clear skies, a fine bracing atmosphere, with the rivers and many of the smaller lakes frozen, and the inequalities in the rough tracks through the woods made smooth by snow, the whole face of the country being literally macadamized by nature for a people as yet unable to macadamize for themselves."

4. *The constituents and character of its population.*

As a matter of course, its inhabitants share in the common characteristics of the races whence they have sprung—which include the leading peoples of Europe, those especially of the British Islands, and France and Germany—and natives of the United States. The circumstances in which they are placed—the constant demand on them for exertion during the earlier period of their residence in the country, the self-dependence they are called to exercise, connected with the measure in which they are thrown on one-another's sympathy, and the hope amidst which they work—have a direct tendency to develop not a few of their better qualities. Even the variety of their previous modes of thought and action, though occasioning perhaps for a time some inconvenience, is a gain to them in the end by the contributions which it enables them to make severally to the common stock of ideas, and the habit which it produces of tolerance for unessential differences, consideration for one-another's feelings, and appreciation of each other's virtues.

An incidental advantage of no small value, resulting from the variety of origin to which allusion has been made, is the sympathy which the new comer may look for from his countrymen, with the measure in which the privilege of association with them helps to make him feel himself at home. This is a source of comfort specially open to emigrants from Britain, France, and the neighbouring States.

Among the larger portion of our people there exists, alongside of the variety of origin alluded to, a homogeneity which greatly facilitates their welding into one community, imparting to them, while the process is going on, a coincidence of feeling which makes living among them easy and pleasant, and secures their acting together in all matters of special moment.

The beneficial influence mutually exerted by the new-comer and the older resident on one another, is well brought out in the following passage of Mr. Hogan.

"It is a remarkable fact that the farmers of Upper Canada have opportunities of improvement, and of enlarging and correcting their views, beyond what are enjoyed by many of their class even in England. And this arises from the circumstance of the population being made up of so many varieties. The same neighbourhood has frequently a representative of the best farming skill of York-shire, of the judicious management and agricultural experiences of the Lothians, and of the patient industry and perseverance of Flanders. In a country so peopled, the benefits of travel are gained without the necessity of going away from home. Other countries, in fact, send their people to teach Canadians, instead of Canadians having to go to other countries to learn. A thousand experiences are brought to their doors, instead of their having to visit a thousand doors to acquire them. Nor is the advantage of this happy admixture of population altogether on the side of the Canadian; for whilst he gleans from the old countryman his skill and his science, he teaches him, in return, how to rely upon himself in emergencies and difficulties inseparable from a new country, how to be a carpenter when a storm blows down a door, and there is no carpenter to be had, and how to be an undismayed wheelwright when a waggon breaks down in the midst of a forest, and there is no one either to instruct or assist him. The one, in short, imparts to a comparatively rude people the knowledge and skill of an old and civilized country; the other teaches skilled labour how to live in a new land. The consequence is, the old countryman of tact becomes, in all that relates to self-reliance and enterprise, a capital Canadian in a few years; whilst the Canadian, in all that pertains to skillful industry, becomes an Englishman."

The operation of the same fact, the mixed character of our population, on the culture of taste is shown in continuance of the above, but our space compels us to leave it unquoted. The principle may be applied more widely

than it is by Mr. H. Its power is, in fact, coextensive with our whole thinking and working.

5. Its institutions.

No where is a more perfect freedom enjoyed than here. Of a state of liberty more complete it would indeed be difficult even to form a conception. We live under laws of our own making or voluntary adoption, administered in courts established by ourselves, and by judges of our own appointing. The men by whom our general affairs are managed are chosen by ourselves and responsible to us for their conduct. Our municipal system gives the people a power in local matters which is supreme, and affords to the more ambitious and intelligent among them an opportunity of preparing themselves for the performance of higher duties, as well as of attracting the notice and securing the respect of the community. Of influence or station, there is nothing among us to which the poorest may not aspire.

"The general features of the municipal law of Upper Canada, and which, with some modifications suited to the different state of society in Lower Canada, may be stated as the system in force throughout the Province, are—

"The inhabitants of each county, city, town and township, are constituted corporations; their organization proceeding wholly upon the elective principle; and provision is made for the erection of new municipalities, as the circumstances of the country require, by their separation from those already existing. A complete system is created for regulating the elections, and for defining the duties of the municipalities and their officers. Their powers may be generally stated to embrace every thing of a local nature, including the opening and maintenance of highways, the erection of school houses, and the support of common and grammar schools; the provision of accommodation for the administration of justice, gaols, &c., and the collection of rates for their support, as well as for the payment of petty jurymen; granting shop and tavern licenses; regulating and prohibiting the sale of spirituous liquors; providing for the support of the poor; preventing the obstruction of streams; effecting drainage, both in the cities and county; inspection of weights and measures; enforcing the due observance of the Sabbath, and protection of public morals; establishing and regulating ferries, harbours, markets, &c.; abating nuisances; making regulations for and taking precautions against fires; establishing gas and waterworks; making police regulations; levying rates upon all real and personal property, including incomes, for all purposes; and, for certain objects, borrowing money; together with a great number of minor matters, essential for the good government of a community.

In educational advantages we know of no country so young that exceeds us. By few of that class are we even equalled. Our common schools, established on the best principles and taught by well-qualified and honourably-conducted teachers, offer to our youth at large the means of qualifying themselves for the intelligent and efficient performance of the duties awaiting them in their present social positions, or aiding them, if such be their wish, to raise themselves to such as are higher, either without cost or at a charge little more than nominal. For the obtaining of a still better culture our Grammar Schools, which are rapidly improving in character, offer all reasonable facilities; while our Colleges and Universities place professional training and instruction in the higher departments of learning and science within the reach of the possessors of moderate means, or such as, in the absence of these, may be disposed to maintain for a time a manly struggle for their own advancement.

From a valuable table (T) given in Dr. Ryerson's Report for 1861, we extract the following particulars illustrative of the educational progress of Upper Canada, between 1842 and 1861.

The number of common schools was, in 1842, 1,271; 1847, 2,727; 1852, 2,992; 1857, 3,631; 1861, 3,910. The pupils attending these numbered, in 1842 65,976; 1847, 124,829; 1852, 179,587; 1857, 262,673; 1861, 316,287. Of Roman Catholic separate schools there are reported, for 1861, in which year they first appear in the returns, 16; 1857, 100; 1861, 109. There were, in 1845, 2,860 common school teachers employed; in 1850, 3,478; in 1855, 3,565; and in 1861, 4,236. There was paid for salaries of teachers of common and separate schools, erection and repair of school houses, libraries and apparatus, in 1850, \$410,472; in 1855, \$899,272; in 1861, \$1,191,413. Of the schools thus reported there were 252 free in 1850; 1,211 in 1855; and in 1861, 2,903.

In 1812, there are supposed to have been in existence 25

county grammar schools. They numbered 32, in 1847; in 1852, 60; in 1857, 72; in 1861, 86. On these schools there were in attendance, in 1847, 1,000 pupils; in 1852, 2,643; in 1857, 4,073; in 1861, 4,766. The salaries paid the masters were, in 1855, the first year in which they are given separately, \$46,255; in 1861, \$71,034.

In 1842, we have reported, in addition to the above, 44 separate schools and academies (a supposed approximation); in 1847, 96; in 1852, 181; in 1857, 276; in 1861, 327. The number of pupils in these institutions was, in 1847, 1,831; in 1852, 5,684; in 1857, 4,073; in 1861, 4,766.

We had in operation, in 1847, six colleges, with an attendance of 700 students; in 1852, eight, with 751 students; in 1857, twelve, with 1,335 (approx.); 1861, thirteen, with 1,373 (approx.)

The amounts reported as paid for educational purposes, in Upper Canada, were, in 1851, \$599,980; in 1856, \$1,326,992; in 1861, \$1,476,107.

The following table, by J. G. Hodgins, LL.B., F.R.G.S., taken from "Eighty Years' Progress," &c. (p. 524), will give an idea of the educational advance of Lower Canada between 1852 and 1861.

Year.	Educational Institutions of all kinds.	Pupils.	Assessments and Fees.
1853	2,352	108,284	\$165,848
1854	2,795	119,733	238,032
1855	2,868	127,053	249,136
1856	2,919	143,141	406,764
1857	2,986	148,798	424,208
1858	2,985	156,872	459,366
1859	3,199	168,148	493,436
1860	3,264	172,155	503,559
1861	3,345	180,845	526,219

As to religious privileges, we are also on the whole favourably situated. The right of judging for ourselves in these matters is universally recognized; and in the eye of the law we stand on an equality. The common denominations have all a place among us, so that we may each, if such be our desire, have the opportunity of connection, in the older portions of the country, at any rate, with those among whom we may have been brought up, or who may be preferred by us. Fair allowance being made for difference in circumstances, the means of instruction will compare favourably, as to character, in the greater part of these bodies, with those enjoyed by them elsewhere. Speaking generally, the usual forms of Christian exertion—the Sabbath school, Bible class, Bible, Tract and Missionary Societies, and kindred organizations—are found in healthful and vigorous operation among them. Notwithstanding their differing views, these denominations, moreover, dwell side by side in peace, treat each other with the courtesies common in other parts of the Christian world, and co-operate with one-another for common objects, as much at least as is common in the lands whence they have come. The institutions for the relief of want and distress in its various forms, which usually follow in the wake of Christianity, have place and are carrying on their good work in our midst.

6. The union which it offers of the advantages characteristic both of the older and the newer states of society.

By selecting as their home the older parts of the country, those whose tastes would lead them to give the preference to the former may secure them in fair measure, provided they bring with them the necessary requisites in character, habits and means; while such as are willing to share the usual fortunes of the latter, may calculate on the chances open to them in ordinary circumstances. Growth, with its attendant advantages, is in these chiefly a question of time and patience. At a much earlier age, and with much less of struggle than is requisite in older countries, the diligent and economical may hope to place themselves in a position of independence. As a general thing, the means of comfortable support is within the reach of the industrious, on conditions much less onerous than in these.

7. Its relations and status.

The emigrant to Canada has, in the fact of its forming part of the British empire, the guarantee of one of the most powerful nations of the earth for his protection against injury from without. In this respect, as in every other, the mother country has of course a right to expect that we shall make every reasonable effort to help ourselves. Should the necessity arise, this will be done; and being done, there need be feared no harm or failure.

Against the risk of any movement from within, which would interfere injuriously with him, he has equal assur-

ance in the hearty loyalty and affectionate attachment of our people to the parent state, which would make them contemplate the prospect of separation with dislike, rather than pleasure.

The connection of Canada with Britain gives her also a standing, which, in addition to its agreeableness, is fitted to render important aid in her development. It tends to operate thus by the feeling of self-respect which it inspires and fosters, by the honours which it holds out to the ambitious hope of sharing, and by the examples that are felt to be constantly inviting imitation.

Retaining, as he does, his connection with the land of his birth, the native of the British Islands who chooses Canada as his home, is saved from much of the feeling of expatriation which he would experience elsewhere. He finds himself but half a stranger, if even that. He looks with a pride, of which he was perhaps never previously conscious, on the old flag, as it floats over him; exults in his country's glories as his own; and finds a hymn in the National Anthem.

8. *The steadiness and satisfactoriness of its growth.*

A few particulars are all our space will admit in illustration of this.

The population of United Canada numbered in the year 1800, 240,000. It was in 1825, 581,920; by 1851, it had reached 1,842,265. In 1861, it amounted to 2,506,755. The advance in Upper Canada between 1825 and 1861 has been from 581,027 to 1,396,091—not much less than 800 per cent, in 36 years.

In 1831, the number of cultivated acres in the whole of Canada, Upper and Lower, was 2,884,345. It came up, in 1844, to 4,968,408; and in 1851, to 7,300,837. The returns for Lower Canada, for 1861, have not yet been published. In Upper Canada alone, 6,051,619 are reported for that year.

Upper Canada had, in 1851, 99,906 occupiers of land. They numbered, in 1861, 131,983. It produced, in 1851, 12,682,550 bushels of wheat; 11,391,867 of oats; 9,982,186 of potatoes; 3,110,118 of turnips; of flax or hemp, 59,680 lbs.; 3,669,874 lbs. of maple sugar. Its produce of these articles was, in 1861—wheat, 24,260,425 bushels; oats, 21,220,874; potatoes, 15,325,920; turnips, 18,205,959; flax or hemp 1,225,934 lbs.; maple sugar, 6,370,605 lbs. The value of the live stock in Upper Canada was, in 1861, as much as \$53,227,496; its agricultural implements, \$11,280,347; its farms, \$295,162,315. A similar progress will, we doubt not, be shown in Lower Canada, when its agricultural statistics for the year in question appear.

In 1808, the value of the entire trade of Canada was about \$5,400,000. The value reached, in 1852—exports, \$14,055,973; imports, \$20,286,493; total, \$34,342,466. In 1861, its imports amounted to \$36,614,195; exports, \$43,046,823; total, \$79,661,013. The value of the trade with the United States alone was, in the last of these years, \$35,455,815; the imports from that country reaching \$21,069,388, and the imports to it \$14,386,427.

In 1851, the net revenue yielded by the customs was \$2,808,831; in 1861, \$4,411,160. The value of books imported was, in 1850, \$243,580; in 1861, \$5,056,943.

On roads, navigation and railroads, the Province has expended as much as \$60,000,000, over and above the interest in the latter of parties out of the country. There are in use at this moment between 1,800 and 1,900 miles of railway; besides 3,422 of electric telegraph, belonging to the Montreal Telegraph Company, which had, in 1861, a capital stock of \$400,000 (to which it had advanced from \$60,000, in 1847), employed 400 persons (35 in 1847), and conveyed 300,000 messages; the number conveyed in 1847 having been 33,000.

Our post offices have multiplied from 3, in 1766, to 69, in 1824; 601, in 1850, and 1,698, in 1860. The number of miles of established post roads was, in the first of these years, 170; in the second, 1,992; in the third, 7,595; and in the last, 14,202. The miles travelled were, in 1824, 309; in 1766, 616; in 1851, 2,287,000; in 1860, 5,712,000. In 1852, 3,700,000 letters were transmitted; in 1860, 9,000,000. The expenditure of the Post Office was, in the former of these years, \$276,191, and its revenue \$230,629; in the latter, its expenditure was \$534,681, and its revenue \$668,451. One hundred and ten thousand dollars additional is paid per annum, by way of subsidy, to railroads; and four hundred and sixteen thousand to steamships.

From the above, it will be seen that our growth has been rapid, steady and general; not coming by fits and starts, or confined in its sphere.

9. *Its prospects.*

It cannot fail, without fault on the part of its people, to

continue growing and to become strong and prosperous and influential; for it has in itself, in its geographical position, and in its relations, all the elements of greatness. But such failure is not to be anticipated, as self-respect, interest and duty, unite in urging us to make the best of our position. The worst part of the struggle is over. To carry us to the height of any reasonable ambition, all that is necessary is perseverance for a moderate time in the self-denial and exertion of the past, with the careful avoidance of its errors, as far as they may be discovered.

The motive to throw in their lot with us, held out by such a state of things to those who may be contemplating change, is manifest. To witness progress is pleasant, how much more to share in it and to be made partakers of the advantages it yields.

10. *The common feeling of such as have made trial of the country.*

Few who have lived in it for any length of time, possessing the characteristics and pursuing the course necessary to success, would willingly exchange it for the lands whence they came. Nothing is more common than for those who visit their old homes, after a few years' residence in it, to feel impatient till they get back. Numbers who have left it with the intention of remaining at home, have returned to it, unable to enjoy themselves there. The freedom realized here from the burdensome restraints of older societies, and the social consideration which the deserving seldom fail to receive, help to explain the above state of feeling. In the fact of its existence the new comer, or the man contemplating coming, has fair promise and assurance that he will, in due time, feel himself one of us and at home among us.

The classes to which Canada will be found specially adapted are—

1. Farmers and parties accustomed to agricultural pursuits.

These may, if they bring moderate means with them, find cleared or un-cleared farms, according to their taste, in most parts of the country, at prices moderate, though of course varying with quality of land, value of improvements, and location. Such as may be without the advantage of means may generally, if prepared to accept of reasonable wages, find employment and comfortable homes among our farmers. By satisfying themselves for a time with these, they gain an acquaintance with the country, the modes of working best suited to it, the most desirable locations, prices of land, &c., which will save them much to which they would be in danger otherwise of being subjected, and help them to work at advantage to themselves.

Though not in an equal degree, parties previously unaccustomed to agriculture, if disposed to devote themselves to it, may secure these advantages by the pursuance of the same course. Numbers are found all through the country, with good farms and in comfortable circumstances, who had their knowledge to acquire after their arrival. If possessed of the physical requisites and the power of adapting themselves to new circumstances, none who make up their minds to persevere, need despair, though, compared with the others, they must labour for a time under disadvantage.

2. Mechanics, those especially of the more common descriptions.

These may generally find employment in one part or another, indeed in almost any part of the Province, at fair wages, and within a reasonable time. If well-behaved, industrious and economical, they may hope to attain ultimately a good position both as to comfort and standing. Many of this class are to be met with in our cities, and even smaller towns and villages, living on their savings while yet comparatively young. Those of trades less common run, of course, more risk, though numbers even of these succeed in making themselves positions in the cities.

3. The possessors of spare means.

What they may be able and disposed to invest will afford this class much better returns here, without the adoption of any course involving wrong, than at home. They may also, if desirous of making themselves useful, obtain (provided they possess the necessary requisites) abundant means of doing so in harmony with their habits and tastes.

The things needful to success in Canada, without which none can hope for it, and with which none need despair of it, are—

1. Fair health, intelligence, and capacity for useful action.
2. Good principles and correct honourable habits.
3. Steady and patient perseverance.
4. A cheerful and hopeful spirit.
5. The blessing of God.

Courts.

COURT OF ERROR AND APPEAL.—Constituted for the hearing of appeals in civil cases from the Courts of Queen's Bench, Chancery and Common Pleas; and appeals in criminal cases from the Courts of Queen's Bench and Common Pleas. From the judgment of this court, an appeal lies to Her Majesty in Privy Council, in cases over £1,000, or where annual rent, fee, or future rights of any amount, are affected. *Judges*—Hon. Archibald McLean, President; Hon. Wm. H. Draper, C.B., Chief Justice of Upper Canada; Hon. P. M. M. S. Vankoughnet, D.C.L., Chancellor of Upper Canada; Hon. William Buell Richards, Chief Justice of the Common Pleas; Hon. J. C. P. Esten, Vice Chancellor; Hon. John Godfrey Spragge, Vice-Chancellor; Hon. John Hawkins Hagarty, D.C.L., Judge Court of Queen's Bench; Hon. Jos. Curran Morrison, Judge Court of Queen's Bench; Hon. Adam Wilson, Judge of the Court of Common Pleas; Hon. John Wilson, Judge of the Court of Common Pleas. *Clerk and Reporter*, Alexander Grant.

COURT OF IMPRISONMENT.—For the trial of Judges of County Courts in Upper Canada, under Con. Stat. U. C., cap. 14.—*Judges*—Hon. W. H. Draper, C.B., Chief Justice of Upper Canada; Hon. Philip M. M. S. Vankoughnet, D.C.L., Chancellor of Upper Canada; Hon. Wm. B. Richards, Chief Justice of the Court of Common Pleas. *Clerk*: W. B. Howard.

COURT OF QUEEN'S BENCH.—The jurisdiction of this Court extends to all manner of actions, causes and suits, criminal and civil, real, personal and mixed, within Upper Canada, and it may proceed in such, by such process and course as are provided by law, and as shall tend with justice and despatch to determine the same; and may hear and determine all issues of law, and also with the inquest of twelve good and lawful men (except in cases otherwise provided for) try all issues of fact, and give judgment, and award execution, thereon, and also in matters which relate to the Queen's Revenue (including the condemnation of contraband or smuggled goods) as may be done by Her Majesty's Superior Courts of Law in England. *Chief Justice*—Hon. William Henry Draper, C.B. *Puisne Judges*—Hon. John Hawkins Hagarty, D.C.L., and Hon. Joseph Curran Morrison. *Clerk of the Crown and Pleas*—Chas. Coxwell Small. *Reporter*—Chris. Robinson, Q.C. *Taxing Officer*—John Small. *Clerk of the Plea Department*—John W. Dempsey. *Clerk of the Docket*—Thos. Coxwell. *Registrar of Crown Bonds, &c.*—E. G. Small. *Clerk of the Vault Department*—Thos. Goldsmith. *Crier and Usher*—Andrew Fleming.

COURT OF CHANCERY.—This Court has the like jurisdiction as the Court of Chancery in England, in cases of fraud, accident, trusts, executors, administrators, co-partnerships, account, mortgages, awards, dower, infants, idiots, lunatics and their estates, waste, specific performance, discovery, and to prevent multiplicity of suits, staying proceedings at law prosecuted against equity and good conscience, and may decree the issue, repeal or avoidance of letters patent, and generally the like powers which the Court of Chancery in England possesses to administer justice in all cases in which there is no adequate remedy at law. *Chancellor*—Hon. P. M. S. Yankoughnet, D.C.L. *Vice-Chancellors*—Hon. James Christie Palmer Eaten and Hon. John G. Spragge. *Special Examiners*—John Hector, Q.C., and Wm. V. Bacon. *Registrar & Reporter*—Alexander Grant. *Deputy Registrar*—William N. Radenhurst. *Clerk in Chambers*—John Black. *Accountant*—John Gray. *Examining Clerk*—Arthur Holmsted. *Clerks*—Michael Hayes and John Irwin. *Usher*—John Oliver. *Messenger*—Donald Sutherland.

Writs of summons and capias issue alternately from either court. *Chief Justice*—Hon. William Buell Richards. *Puisne Judges*—Hon. Adam Wilson and Hon. John Wilson. *Clerk of the Crown and Pleas*—Lawrence Heyden. *Reporter*—Edward C. Jones. *First Clerk*—Augustus B. Sullivan. *Second Clerk*—S. B. Clark. *Crier and Usher*—Daniel O'Connell.

PRACTICE COURT AND CHAMBERS.—One of the Common Law Judges holds a Court during each Term, called the "Practice Court," for hearing matters relating to the adding or justifying bail, discharging insolvent debtors, administering oaths, hearing and determining matters on motion, and making rules and orders in causes and businesses depending in either of said law courts. Chambers are held each day in Common Law and Chancery by one of the judges of the said courts, for such business relating to suits therein as may be transacted by a single judge out of court. *Clerk, Common Law*—Wm. B. Heward. *Clerk, Chancery*—John Black.

HEIR AND DEVISEE COURT.—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Upper Canada, for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees or as

signees. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*, W. B. Heward.

COUNTY COURTS.—Presided over by a resident Judge in each county. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed £50; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to £100; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to either of the Superior Courts of Law. These Courts also possess equity powers, to the amount of £50, subject to an appeal to the Court of Chancery.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting or revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effects in Upper Canada, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Court of Chancery. The County Judges are also Judges of the Surrogate Courts. *Clerk*, C. Fitzgibbon, Toronto.

COURTS OF QUARTER SESSIONS.—Chairman, the County Judge in each county, who, with one or more Justices of the Peace, holds a Court of Quarter Sessions in his county four times a year for trials by jury in cases of larceny, misdemeanor and other offences.

RECORDERS' COURTS.—In the Cities of Toronto, Hamilton, London, Kingston, and Ottawa, the Recorders' Court takes the place of the County Sessions, the Justices for Counties having no jurisdiction in the Cities—the care of which is confided to the Recorder, Mayor, Aldermen and Police Magistrate of each. Sessions held first Monday in March, June and September, and third Monday in December. *Recorders*—Geo. Duggan, jun., Toronto; Arch. J. McDonnell, Kingston; John B. Start, Hamilton; William Horton, London; J. B. Lewis, Ottawa.

INSOLVENT DEBTORS' COURTS.—The County Judge in each county presides.

DIVISION COURTS.—For the summary disposal of cases by a Judge; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract amounting to £25; injuries or torts to personal chattels amounting to £10; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Courts are held once in two months in each division, or oftener, at the discretion of the Judge. The Divisions are established by the Courts of Quarter Sessions.

Crown Law Officers.

ATTORNEY-GENERAL.—Hon. John Sandfield Macdonald, Q.C. **SOLICITOR-GENERAL.**—Vacant.

Officers of the Courts.

CLERKS OF ASSIZE.—The Deputy Clerks of the Crown are ex-officio Clerks of Assize and Marshals in their respective counties.

DEPUTY CLERKS OF THE CROWN.—The Clerks of the County Courts will be ex-officio Deputy Clerks of the Crown and Pleas of their several counties as the present incumbents vacate by death or otherwise.

DEPUTY REGISTRARS AND MASTERS IN CHANCERY.—These officers are appointed by the Court, for each County, as occasion requires.—(See title Master's office in Chancery.)

CLERK OF THE PROCESS.—For sealing and issuing Writs of Summons and other Writs in the Queen's Bench and Common Pleas (alternately)—Robt. Stanton. The Deputy Clerks of the Crown in the several Counties are supplied with writs from Toronto, and re-issue the same in their respective counties.

LETTER RATES.

Letters posted in Canada addressed to any place within the Province pass, if prepaid, for 5 cents per $\frac{1}{2}$ oz., but if posted unpaid such letters are charged 7 cents per $\frac{1}{2}$ oz.

On Letters to Nova Scotia, New Brunswick, and Prince Edward's Island, the rate is 5 cents per $\frac{1}{2}$ oz., with optional prepayment.

The rate on Letters to the United Kingdom is, by Canadian Packet,

Not exceeding $\frac{1}{2}$ oz.	12½ cents.
Exceeding " and not exceeding 1 oz.	25 "
" " 1 oz. and not " 2 oz.	50 "

and so on, increasing two rates of postage for each additional ounce.

And by Cunard Packet, 17 cents per $\frac{1}{2}$ oz., &c. Letters for the United Kingdom must be prepaid, or they will be charged a fine of 6d. sterling on delivery.

Letters for British Colonies and Possessions beyond Sea, and Foreign Countries, via England, must be prepaid.

The rate on letters for the U. States,	
(except California and Oregon) 10 cents per $\frac{1}{2}$ oz.	
" for California and Oregon	15 "
" to Cuba	20 cents per $\frac{1}{2}$ oz.

The Postage rate to British Columbia is,	
Letters	25 cents per $\frac{1}{2}$ oz.
Newspapers	2 cents each.

MAILS FOR CANADA FROM ENGLAND.

Two Ocean Steamers carrying mails for Canada leave Liverpool in each week, viz.: a Canadian Packet on every Thursday, via Derry on Friday, sailing to Quebec in summer and Portland in Winter, by which the Postage rate is 6d. stg. per $\frac{1}{2}$ oz.; and a Cunard Packet every Saturday, via Cork on Sunday, bringing Mails for Canada, alternately to Boston and New York, by which the Postage rate to Canada is 8d. stg. per $\frac{1}{2}$ oz.

The British Post Office forwards letters to Canada by the first packet sailing after the letter is posted, unless the letters bear a special direction—"By Canadian Packet" or "By British Packet"—and in that case they are kept over for the Packet designated. "By Canadian Mail" is not a distinctive superscription; for any Mail for Canada is a "Canadian Mail," by whatever Packet forwarded.

REGISTRATION OF LETTERS.

Persons posting Letters containing value, should be careful to require them to be registered, and to obtain from the Post Master a Certificate of receipt for Registration.

The charge for Registration, in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada, or British North America	2 cents.
On Letters for the United States	5 "
On Letters for the United Kingdom	12½ "
On Letters for British Colonies or Possessions, sent via England	25 "

On Letters for France and other Foreign Countries, via England, an amount equal to the postage rate. Both the postage charge and registration fee must in all cases be prepaid.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced when an Unregistered Letter cannot, and the posting and delivery or non-delivery can be proven. A Registered Letter is thus secured against many of the casualties which, from incorrect address, forgetfulness of the receiver, or other error, may affect an Unregistered Letter.

MISCELLANEOUS CHARGES.

The charge on Parcels by the Parcel Post, which is limited to places within the Province, is 25 cts. per lb. (with 3 cts. additional if Registered.)

One cent per oz., payable in advance by Postage stamp, is the rate on Printed Circulars (Printed Circulars, if sent in envelopes, whether sealed or unsealed, are liable to letter postage), Prices Current, Hand Bills and other Printed Matter of a like character, and on Books, bound or unbound, when posted at a Canadian Post Office addressed to any place in Canada, British North America generally, or the United States.

The postage upon Printed Circulars and Prices Current addressed to the United Kingdom is two cents each, which must be prepaid by postage stamps, or they will be sent to the Dead Letter Office to be returned to the senders.

The charge on Books, &c., by Book Post to England, is 7 cents on packets not exceeding 4 oz. in weight, 12½ cents on $\frac{1}{2}$ lb. packets, and 12½ cents additional for every additional $\frac{1}{2}$ lb. These charges must be prepaid. Photographs, provided they are not upon glass or in cases containing glass, may be forwarded to England at the Book rate of postage.

BOOK POST WITH FRANCE.

For a Packet of Printed matter, or single Newspaper, Book, &c.	not over 2 oz.	4 cents.
Do. exceeding 2 oz. and " 4 oz.	8 "	
Do. " 4 oz. and " 8 oz.	17 "	
Do. " 8 oz. and " 1 lb.	34 "	

And so on, increasing 17 cents for each additional $\frac{1}{2}$ lb. The Book Post regulations between Canada and England apply to matter between Canada and France.

NEWSPAPERS AND PERIODICALS.

Newspapers published in Canada may be sent by Post from the office of publication, addressed to any place in Canada, at the following rates, if paid quarterly in advance by either the publisher at the post office where the papers are posted, or by the subscriber at the delivering post office:

For a paper published 6 times a week, 40 cents per quarter.	
" " 3 " " 20 " "	
" " 2 " " 13 " "	
" " 1 " " 6½ " "	

When the above rates are not paid in advance by either publisher or subscriber, such Papers are charged one cent each on delivery.

TRANSIENT NEWSPAPERS.

Transient Newspapers—that is to say, Canadian Newspapers posted otherwise than from the office of publication, and American or British papers posted or re-posted in Canada, must be prepaid 1 cent each, by postage stamp, or they cannot be forwarded—except only *British Newspapers* distributed to regular subscribers by Canadian Booksellers or News Agents—such papers pass free as they would do if received in the Canadian Packet Mails.

NEWSPAPERS BY MAIL FROM ENGLAND OR UNITED STATES.

Newspapers received from England by the Canadian Packet Mails are delivered free.

Newspapers from England by the Cunard Packet Mails are charged 2 cents each on delivery. (This is the American transit charge.)

United States Newspapers, brought by mail into Canada, are charged one cent each on delivery.

PERIODICAL PUBLICATIONS.

The rate on Periodical Publications is, if not exceeding 3 ounces in weight, 1 cent; over 3 ounces, 4 cents.

If prepaid by postage stamps from the office of publication, Periodicals published in Canada, weighing over 3 oz., may pass for 2 cents each.

Periodicals, printed in this Province, other than Newspapers, when specially devoted to the Education of Youth (both religious and general), to Agriculture, to Temperance, or to any branch of science, and addressed directly from the office of publication, to be transmitted to any post office in this Province, are exempt from charge.

Transient Periodicals—including Canadian Periodicals not prepaid the commuted rate from the office of publication—nor exempted by the preceding clause, and all other Periodical publications posted in this Province, must be prepaid by Stamp, the full rate, at the time of posting.

Periodicals received in Mails from the United States are charged with the rates named in the 1st clause of this section.

MONEY ORDERS.

Money Orders payable in the Province may be obtained at any Money Order Office in the annexed list, at the following rates of commission:

On Orders up to	\$10.....	5 cents.
Over \$10 and up to	\$20.....	10 do.
Do. 20 do.	40.....	20 do.
Do. 40 do.	60.....	30 do.
Do. 60 do.	80.....	40 do.
Do. 80 do.	100.....	50 do.

N.B.—No half cents to be introduced in the Orders.

No single Order can be issued for more than \$100.

Money Orders, payable at any Money Order Office in Great Britain and Ireland, can be obtained at any Canadian Money Order Office. The Orders are drawn in Sterling, the commission chargeable being: for £2 and under, 25c; over £2 and up to £5, 50c; over £5 and up to £7, 75c; over £7 and up to £10, \$1. No order can be drawn for more than £10, but any number of orders of £10 each may be procured.

POSTAGE STAMPS.

Postage Stamps are provided for sale of the respective values of 1 cent for Newspapers; 5 cents for ordinary Pro-

vincial Letters; 10 cents for United States rate; 12½ cents for Canadian Packet; and 17 cents for Cunard Packet.

Letter Envelopes are provided, impressed with medallion stamps, and equivalent to the prepayment of postage to the amount of 5 cents and 10 cents respectively.

The 5 cent envelopes will be sold to the public at the rate of \$5 50 per hundred, or 66 cents per dozen. The price of a single envelope is 6 cents.

The 10 cent envelopes will be sold at the rate of \$10 50 per hundred, or \$1 26 per dozen. Single envelopes 11 cts.

PENAL CLAUSES.

The Act contains the following penal clause:—

To inclose a letter or letters, or any writing intended to serve the purpose of a letter, in a Parcel posted, for the Parcel Post, shall be a misdemeanor.

To inclose a letter or any writing, or to make any written marks to serve the purpose of a letter, or to inclose any other thing in a newspaper posted to pass as a newspaper, at the rate of postage applicable to newspapers, (except in the case of accounts and receipts of newspaper publishers, which are permitted to pass folded within the newspapers sent by them to their subscribers,) shall be a misdemeanor.

List of Post Offices in Canada on the 1st September, 1863.

The Offices whose Names are printed in Italics are authorized to Grant and Pay Money Orders.—Those with an obelisk (†) are Sub-Offices.

The college year commences with the Autumn Term.

The Autumn Term begins Sept. 10; Winter do., Nov. 20; Spring do., Feb. 15; Summer do., May 1. Reports of the progress and conduct of the pupils are sent to parents twice each Term, or oftener if desired. Deducting the Vacations, the Terms are ten weeks each. The Tuition Fee is \$10 for one Pupil, \$9 each for two (Brothers), \$8 each for three (Brothers); and the Fee for Boarders, inclusive of Tuition, is \$45 per Term. The many improvements made in the arrangement of the College Boarding House have been found to add very materially to the comfort of the boarders. A large paved Ball Court and a Gymnasium, fitted up with the most approved modern appliances, and a spacious play-ground and cricket ground afford ample facilities for out-door exercise and amusement within the College bounds. The Boarding House is conducted strictly as an integral part of the Institution, its disbursements paid out of, and its returns paid into, the general funds. Prizes of books and certificates of honor are given every year to those who distinguish themselves in any of the subjects taught in the College

His Excellency the Governor General offers annually a valuable Prize of Books for the best examinations in the higher departments of the College Curriculum. At the Annual Public Examination in July Exhibitions are competed for, varying in value from \$120 to \$40 per annum. Competition for them all is open to the Grammar Schools of the whole Province. More than 2,600 of the youth of the Province have received their education, in whole or in part, in Upper Canada College. The First Classical, and the Mathematical Masters, were pupils of the Institution; and were likewise the greater portion of the Medal-men, Scholars, and Honor-men of our Universities.

COMMON SCHOOLS.—Each Township is divided into School Sections of a suitable extent for one School; and in each of these Sections three Trustees are elected to manage the School affairs. In cities, towns, and villages, the schools are managed by a Board of School Trustees, elected for the Municipality. There were 4,104 Common Schools, with 343,733 pupils, in Upper Canada, in 1862.

PUBLIC SCHOOL LIBRARIES.—Each School and Municipal Corporation, desirous of establishing Free Public Libraries, is aided by the Educational Department granting 100 per cent. on local appropriations, and supplying books from the Depository in connexion with the Department. Up to the end of Dec. 1862, about 513 Libraries had been established, containing more than 1209 sub-divisions, and 198,845 vols.

EDUCATIONAL MUSEUM.—Connected with the Educational Department is a Museum, containing specimens of School apparatus and furniture; a valuable collection of Italian, Dutch and Flemish Oil Paintings and Statuary casts and busts. The Museum is freely open to the public.

THE TOTAL NUMBER OF EDUCATIONAL INSTITUTIONS of all kinds reported by the Educational Department as in operation in Upper Canada during 1862, was 4,554, attended by 357,572 pupils, and expending \$1,703,216 in their support.

Under the superintendence of the Council of Public Instruction, Lower Canada.

THE BELLEVILLE SEMINARY.—Incorporated, 1857.—This Institution is the property of the Methodist Episcopal Church, but free to all denominations, no religious creed being taught in it, and students being required to attend

such places of worship as their parents or guardians may direct. It is affiliated to the University of Toronto. Ample accommodation is afforded for the instruction of two hundred students. Both sexes are included in the provision; ladies being instructed in the ornamental as well as solid branches, and gentlemen being afforded a commercial, mathematical, and classical education. Ladies may take a thorough course of instruction, prepared expressly for them, and receive degrees and diplomas. The following compose the Faculty and Board of Instruction: Rev. A. Carman, *M.A.*, Principal, and Professor of Mathematics, History and English Literature; Rev. H. P. Shepard, *M.A.*, Professor of the Latin and Greek Languages; J. E. Howell, *B.A.*, Professor of Natural Science, and Rector of English Department. Miss Anne Green, Preceptress, and Teacher of Music, Piano, Melodeon and Guitar and the French Language; Mrs. A. Carman, Assistant in French and Music; Mrs. H. P. Shepard, Teacher of Drawing and Painting of all kinds. Besides the above, others, not of the Faculty, are employed to teach in the institution. The academic year is divided into two sessions of twenty weeks each. The first begins the third Thursday of September; the second the third Thursday of February. The winter vacation is two weeks long; the summer ten.

The Capital and Assets of the Society, invested in Mortgages on First-class Real Estate, being pledged for the security of money thus received, Depositors are at all times assured of perfect safety.

MONEY TO LEND.

This Institution advances money on the security of improved City or Farm Property, situate in Western Canada, re-payable by instalments payable monthly, quarterly, half-yearly or yearly, spread over any term the borrower chooses, from One to Ten years, at the following

REDUCED RATES :

Monthly Repayments on an advance of \$100, to be paid off in

1 YEAR.	2 YEARS.	3 YEARS.	4 YEARS.	5 YEARS.	6 YEARS.	7 YEARS.	8 YEARS.	9 YEARS.	10 YEARS.

SCIATICA, SPRAINS, &c., &c.

TESTIMONIALS.

From Captain F. Macdonald, Commander of the East India Ship the "Lord Auckland."

"I feel it a duty incumbent on me to inform you of the very beneficial effect I have received by the use of your infallible Embrocation for Rheumatism, from which complaint I have suffered most severely for more than a month, and was quite unable to leave my bed. I have had the best medical advice, and everything done possible, but to no effect. I heard by accident from a friend of your Embrocation, and immediately sent for a bottle, and after applying it two or three times as directed, I felt very much relieved, and in a week I was perfectly cured. You are quite at liberty (Indeed I should wish it) to make what use you please of this document for the benefit of those who may be similarly afflicted.

From Mrs. Hughes, 3 East Street, Red Lion Square.

SIR,—I have been for many years a great sufferer from Chilblains, which usually attack my feet the whole winter. I was urged very much to try your Embrocation (by a friend who had been cured by it) from which I found almost immediate relief. This winter (about three weeks since) I was attacked again, so that I was unable to wear a shoe or put my feet to the ground, and I believe they would have broken in a few days, but I am delighted to say that after a few applications of your Embrocation, before I had finished one small bottle, they had entirely disappeared, and I have now no fear for the future. If any use you can make of this fact may be the means of affording relief to others, it will be a great source of satisfaction to me.

Sold by all Chemists and Patent Medicine Venders, price 2s. 9d. per bottle.

CAUTION.—See the words "Thos. Feaver's Embrocation" on the Government Stamp.

No. 132 YONGE STREET, TORONTO, C.W.

BRYANT, STRATTON & DAY'S Commercial College,

KING STREET, TORONTO, C. W.,

First door East of Wesleyan Book Room.

Established in connection with Bryant, Stratton & Co.'s, chain of International Commercial Colleges, located in fifteen of the largest cities of the United States and Canada, employing sixty Professors and Lecturers—with a large daily attendance of young men—the most extensive series of educational institutions ever established in any country, and the progress which the enterprise has achieved during the past ten years is as gratifying to the Proprietors as it is creditable to the energetic and intelligent purposes of the thousands of young men who have completed the course of instruction, and the other thousands who are at present enrolled in the daily classes of the respective colleges comprising the "chain."

DESIGN.

The purpose in establishing these institutions has been to furnish young men with the facilities of a Business Education which will enable them to enter at once upon fields of usefulness and honor.

The tedious years of Apprenticeship which, under the old system, was considered the only stepping stone to remunerative positions, are epitomized into a few months of pleasant study, where the mind is trained not only to appreciate the minor details of business, but the grander principles which underlie the economy of life, and without which no business education can be considered complete.

The advantages possessed by such institutions over counting-house experience, in laying the deep foundations of a complete and symmetrical education applicable to all the varied exigencies of a business life, are many and indisputable.

First, the course of instruction is specially prepared to bring into proper relief those essential facts which in the usual processes of experience do not occur in such order or frequency as to be susceptible of being arranged into a system, or of establishing a logical sequence in the mind. Next, the various departments of business, with all the accessories, are so completely illustrated and enforced as to convey special and permanent instruction as to details in the matter of buying, selling, shipping, receiving, and in all the processes of Commerce and Finance applicable to both inland and foreign trade.

COLLEGIATE COURSE.

The course of instruction in these Colleges has direct reference to the requirements of business. The main branches pursued are: BOOK-KEEPING, in all its departments and applications.

COMMERCIAL LAW, including both the Law Merchant and such statutory regulations as pertain to questions of property and personal rights.

COMMERCIAL ARITHMETIC, embracing all subjects applied in business transactions, the great majority of which are either entirely omitted or very lightly and unsatisfactorily treated in the prevailing text-books of the day.

BUSINESS PENMANSHIP, upon the Spencerian basis, under the instruction of the best teachers of this system in the country.

BUSINESS CORRESPONDENCE, including the principles of English Composition, and such thorough practice in connection with the daily exercises as must secure the most satisfactory results.

Incidental instruction is also given in Political Economy, the Science of Government, the Customs of Business, etc.

The modern languages and higher mathematics are taught when desired.

PLAN OF INSTRUCTION.

REGULATIONS.

Each student is admitted upon his own recognition as a gentleman; is treated as such, and is expected to consider himself, in all respects, responsible for his own acts. Having purchased a scholarship, which secures to him the necessary instruction to make him a thorough accountant, he is permitted to elect his time and place of attendance within the prescribed jurisdiction of the colleges; but it is expected of all students that they will observe all possible diligence and regularity in their attendance. The general discipline, while it does not descend to those

minute and specific requirements which seem necessary in the conduct of schools more primary in their character, is, nevertheless, sufficiently strict and exacting to place the responsibility of the student's progress upon himself. A record of attendance is kept in connection with the recitations, and promptness, as far as may be, is required. The progress of each student in his course is regulated by such frequent and thorough examinations as shall be competent to satisfy the teachers in charge, and no student is permitted to pass from one division of his course to another without giving evidence of suitable proficiency.

THE INITIATORY COURSE

Comprises a complete knowledge of the THEORY OF ACCOUNTS and the collateral branches, embracing Penmanship, Commercial Law, Commercial Calculations and Correspondence.

This part of the collegiate course is most carefully and critically watched, no student being permitted to pass from one step to another without a thorough and satisfactory examination.

His knowledge of BOOK-KEEPING, before passing to the Counting-house or Graduating Course, must cover the entire field of the science, embracing the Departments of Retail and Wholesale Merchandising, Commission, and Forwarding, Agencies—both Simple and Compound—Joint Stock Companies of all kinds, such as Banking, Manufacturing, Railroad, Insurance, Mining, &c. &c., requiring him to open, conduct, and close over TWENTY SETS OF BOOKS, with every variety of partnership contract, and division of gains and losses. The sets are short, embracing a large variety of entry, and bringing into requisition all the forms of business paper, such as notes, drafts, cheques, certificates of deposit, bills of exchange, statements, &c.

GRADUATING COURSE.

After passing through the initiatory course, and giving satisfactory evidence of a thorough knowledge of the principles and practice of business, the student is advanced to the Counting Room, where his proficiency is put to the most severe practical test. The "Counting Room" is a miniature business world, in which are presented all departments of economy, and affording to the student a novel and interesting glimpse of the outer world for which he is preparing. Here he sees, in actual and harmonious operation, the different branches of trade and commerce which unite countries, states, communities and individuals, in the closest bonds of mutual interest, and make up that grand system of economy which men call business.

PREPARATORY EDUCATION.

PREPARATORY EDUCATION.—A fair knowledge of the ordinary English branches constitutes a sufficient preparation for entering upon a Commercial Course.

TIME OF COMMENCEMENT.—As there are no term divisions, Students can enter at any time, and pursue their Course as rapidly as their ability will admit.

TIME REQUIRED.—The time necessary to complete the full Course is from ten to fourteen weeks, varying according to the ability of the Student.

DIPLOMAS.—Those Students, and those alone, who fulfil the prescribed course of study and pass the requisite examination, are entitled to the honors of Graduation. Diplomas are awarded to all such, free of charge.

EMPLOYMENT.—It is for the interest, as it will ever be the pleasure of the Principals and Teachers at these Colleges, to use their best exertions to obtain good situations for their graduates. In this they have, heretofore, been very successful; and while it is not our practice to hold out inducements in this direction, we hazard nothing in saying that we possess unusual facilities for securing desirable positions for competent young men.

EXPENSE OF COURSE.

Life Scholarship (good in any of the Colleges, for full course).....	\$40 00
Text Books and Blank Books for full course.....	12 00

READING ROOM AND LIBRARY.

Young men and ladies purchasing a Scholarship will be presented with a Card of Admission to the Reading Room and Library of the Mechanics' Institute.

WEBSTER'S DICTIONARIES A NATIONAL STANDARD.

PRESIDENT SAMSON, of Columbian College, Washington, says, April, 1860, "The just principle of its collection, the thorough scholarship of its etymology, the clear analysis of its definitions, and good sense in its orthography and orthoëpy, must make it for a time to come the National Standard; for it is one of those works so true in its model and complete in its execution, that any material variation from it must introduce imperfection."

FROM LEADING NEW YORK PUBLISHERS.

We have observed that with literary men generally spelling is entirely a matter of habit, very few of them conforming strictly to the authority of any dictionary; while, in this country at least, the authors of educational text books, and other works in reference to which the question of orthography is carefully considered, very generally recognize and carefully follow Webster as their standard.

D. APPLETON & Co.
CHARLES SCRIBNER.
GEORGE P. PUTNAM.

New York, May 16, 1860.

From Lord Brougham, High Chancellor of England.
A necessity to every educated man.

From Hon. George Bancroft, the Historian.

The etymological part surpasses any thing that has been done for the English Language by any earlier laborers in the same field.

From Daniel Webster.

I possess many dictionaries, and of most of the learned and cultivated languages, ancient and modern; but I never feel that I am entirely armed and equipped, in this respect, without Dr. Webster at command.

From Rufus Choate.

Messrs. G. & C. Merriam. Gentlemen,—I have just had the honor of receiving the noble volume in which you, and the great lexicographer, and the accomplished reviser, unite your labours to 'bid the language live.' I accept it with the highest pride and pleasure, and beg to adopt, in its utmost strength and extent, the testimonial of Daniel Webster.

From Elihu Burritt.

Webster's great Dictionary may be regarded as bearing the same relation to the English Language which Newton's Principia does to the sublime science of Natural Philosophy.

From Rev. Dr. Huntington, of Harvard University.

No student, as it appears to us, has access to the needful resources for understanding or using our native tongue who does not keep this vast and rich repository of philological labor and learning at his side. Its definitions—now almost universally acknowledged to be

unrivalled for completeness, accuracy, and the avoidance of mere synonyms,—together with some of its other features, render it indispensable in every library and at every writing-desk.

From Hon. John C. Spencer.

Unquestionably the very best Dictionary of our language extant. Its great accuracy in the definition and derivation of words gives it an authority that no other work on the subject possesses. It is constantly cited and relied on in our courts of justice, in our legislative bodies, and in public discussions, as entirely conclusive.

From John G. Whittier.

The best and safest guide of the students of our language.

From the Boston Journal, July 23, 1863.

DICTIONARIES IN ENGLAND.—There are at the room of the agent for Webster's Dictionaries, at Mason & Hamlin's, 274 Washington street, specimen copies of six different editions of Webster's Dictionary, published in England, and also specimens of "Noah Webster's British and American Spelling Book," and "The Illustrated Webster Reader," also from the English press. No person can examine these volumes without realizing how very great a popularity the name of Noah Webster has attained in Great Britain.

From R. H. Smart, the well-known English Elocutionist and Lexicographer.

The Pictorial Edition of Webster's Dictionary, unabridged, take it altogether, must be considered, in America at least, as the surpassing work of its kind.

WEBSTER'S SCHOOL DICTIONARIES.

1. The Primary, 42c. 2. Common School, 62c. 3. High School, 75c. 4. Academic, \$1 50. 5. Counting House, \$1 25. 6. University, \$1 50.

AMERICAN BOOKS IN ENGLAND.—An American publisher, now in London, writes to a friend, that more than one half of all the Dictionaries published in England are Webster's. In other words, the works of the great American lexicographer have a greater sale in England, as in this country, than that of all other Dictionaries of the English language combined.

These popular School Dictionaries have been thoroughly revised within the last three or four years, being extensively regarded as the standard authority in Orthography, Definition, and Pronunciation, and, as the best Dictionaries in use, are respectfully commended to teachers and others. They are much more extensively sold and used than all others combined. Sold by all Booksellers.

Testimonial from Dr. A. Ure, the celebrated Author of the "Dictionary of Arts, Manufactures," &c.

"Having tested MESSRS. BARRY & CO.'S Soluble and other Cocoas, I have much pleasure in stating that I consider them so well prepared, that while they retain the nutritive properties of the finest Trinidad Cocoa Nut, the process of their manufacture is so excellent as to make them particularly bland and acceptable to the most delicate stomach.

"18 Upper Seymour Street, Portman Square, January 23, 1854.

Signed, ANDREW URE."

BARRY & CO.'s Mustard is manufactured by their Patent Process, by which the pungency and flavor of the Seed are preserved to the fullest extent. Dr. Hassall, in his report on the substances used for food exhibited in the Exhibition, 1862, says:—"The Seed from which BARRY & Co.'s Mustard is made is dried on an improved principle by means of their Patent Apparatus, the action of which, judging from the description given, we should conclude to be very perfect."

DR WORCESTER'S ROYAL QUARTO IS THE

STANDARD DICTIONARY

With Scholars and Literary Men wherever the English Language is spoken. It is a necessity to every educated man. Its extraordinary excellence and cheapness render it the most desirable Family Dictionary ever published.

From Herbert Coleridge, Secretary of the London Philological Society, England.—As a work of practical utility, your book appears to me to be NEARLY PERFECT, and I expect to derive immense assistance from it.

From H. R. H. Prince Albert, in an Autograph Letter to Hon. Ed. Everett, dated Buckingham Palace, May 9, 1860.—MY DEAR MR. EVERETT: I have to acknowledge the receipt of the very handsome copy of Dr. Worcester's Dictionary, which you have been good enough to send me; and I must beg of you also to assure the publishers that I am very sensible of the kind feeling which they manifested towards me. It is very gratifying to see that the parent language receives such valuable aid for its development and the preservation of its purity in your country.

From Thomas Carlyle, England.—New fields are opened with success; everything is calculated for conveying information by the directest road.

From Charles Dickens, England.—It is a MOST REMARKABLE WORK, of which America will be justly proud, and for which all who study the English language will long have reason to respect your name, and to be grateful to you.

From E. Ryerson, D.D., Superintendent of Public Instruction for Upper Canada.—I have for several years used Webster, as the best Dictionary of its kind—always excepting its orthography—but I regard and recommend for our schools and public institutions, Worcester's Dictionary, as a VERY GREAT IMPROVEMENT upon that of Webster's pictorial edition.

From Alpheus Todd, Librarian of Parliament, Quebec.—Worcester's Dictionary is an established favorite with us. For exact definitions, full and complete lists of technical and scientific terms, and words of modern introduction, I do not know its equal.

The London Athenæum records its opinion thus—"The volumes before us show a vast amount of diligence; but with Webster it is diligence in combination with fancifulness,—with Worcester in combination with good sense and judgment, Worcester's is the soberer and safer book, and may be pronounced THE BEST EXISTING ENGLISH LEXICON."

The London Examiner—"The great recommendation of the volume is its fulness and cheapness. We have tested it from time to time by looking for the meanings of provincial words that one would not expect to find in such a dictionary, and have never failed to get a right answer from it. Appended to the volume, which makes frequent use of woodcut in aid of its definitions, is an appendix, showing the pronunciation of proper and geographical names, modern as well as ancient, giving abbreviations and signs, and explanation of everyday phrases and quotations from Greek, Latin, French, Italian, or Spanish. For the general use of the public this seems, indeed, to be an English dictionary SINGULARLY CHEAP, FULL, and TRUSTWORTHY."

The London Critic—"We will now take leave of this magnificent monument of patient toil, careful research, judicious selection, and magnanimous self-denial (for it requires great self-denial to abstain from undesired originality), with a hearty wish for its success. It is sad to think that the result of so much labour, from which Hercules, had he been intellectually inclined, would have shrunk appalled, should be barren fame; yet we can easily believe that Dr. Worcester (as he says) expects no adequate pecuniary compensation for his gigantic undertaking: for it is difficult to imagine a sum which could adequately compensate the man who has produced THE COMPLETEST and THE CHEAPEST ENGLISH DICTIONARY which the world has yet seen."

The London Literary Gazette—"We have devoted a very considerable amount of time and labour to the examination 'Worcester's Quarto Dictionary of the English Language,' and we have risen from the task with feelings of no ordinary satisfaction at the result, and admiration of the care, scholarship, philosophical method, and honest fidelity of which this noble work bears the impress upon every page.....As a COMPLETE and FAITHFUL DICTIONARY OF OUR LANGUAGE in its present state, satisfying to the full those requirements, the fulfilment of which we have laid down as essential to such a work, we know no work that can bear comparison with it."

SOLD BY ALL BOOKSELLERS.
